

--- Content from <https://jklu.edu.in/placements/> ---

We at JKLU take pride in our students and their endeavours. Every year, our career guidance and placement department assists them in exploring new and exciting career options to make informed choices. The department organises industry visits and numerous on-campus symposia for the outgoing students of our three institutes of Engineering, Management, and Design that create opportunities for them to interact with prospective recruiters and allow them to make inroads into unexplored sectors and fields.

Periodic campus interviews are integral to the recruitment process at JKLU that follow multiple pre-placement discussions between the students and prospective recruiters. This allows the students valuable insight into a specific organisation, the company's vision and mission as well as the details of the job applied for. The final selection process involves group discussions, interviews, and assignments where staff and elected student members of the placement committee work to make the recruitment process systematic and seamless.

We are a NAAC 'A' grade accredited university that offers quality education along with assured placements across industry sectors. The proactive academic-industry relationship nurtured over time further allows our students to secure the best jobs and pursue promising careers across a wide spectrum of choice.

JKLU has seeing unprecedented growth in Engineering & Management placements over the last four years. The highest CTC has increased from 8.00 lpa to 22.5 lpa, while the average CTC increased from 4.46 lpa to 6.95 lpa.

Top Recruiters

Academic Collaborations

During their study programme, JKLU students also get the unique opportunity to study one semester at IIT Gandhinagar, IIIT Delhi, University of Florida, and St. CloudState University. So Far, 14 students have benefited from this system of exchange of students, faculty, knowledge & researchers with national and international universities, helping our students to get an edge in today's advancing world. We also collaboratively create multidisciplinary courses that nurture various skills.

Industry Partnerships

JKLU students benefit from a close and sustained dialogue with the industry to leverage the advantages of mentorship, counselling, and work opportunities.

About the programme

B.Tech. Program at IET, JKLU is designed in sync with the latest technological advancements and innovations while preparing students to become future-ready for both jobs and academic research. Project-based pedagogy and effective frameworks for learning form the core of the course curriculum to allow free exchange of ideas between students and teachers and enhance problem-solving aptitude in them. An interdisciplinary and comprehensive curriculum designed with support from Olin College of Engineering, Boston, USA makes the B.Tech. Programme at JKLU Institute of Engineering and Technology much sought after. Experienced faculty from premier academic institutions across the country engages students in short term courses on cutting-edge technologies. During the programs, selected students also get an opportunity to pursue one semester in different IITs and IIITs like IIT Gandhinagar, IIT Jammu, IIT Bhilai, IIIT Delhi, IIIT Hyderabad, IIT Kanpur, IIT Delhi, etc and many foreign educational institutions. Our engineering graduates get hired by leading companies and business houses to pursue promising careers in their respective areas of choice.

Concentrations

Students Speak

Data science experts are computer professionals possessing skills for collecting, analysing, processing a large set of structured and unstructured data. In this time of computers, most organisations are collecting a huge amount of data in their daily operations. In almost every interaction with technology, data is interchanged. A data scientist's role is to analyse this data and interpret the results to implement them for the organisational benefits.

Data Scientists not only play a key role in business analysis, but they are also responsible for building data products and software platforms. Data science experts are needed in virtually every job sector including the five biggest tech companies, Google, Amazon, Apple, Microsoft, and Facebook.

Here are some of the leading data science careers:

- Data Scientist
- Machine Learning Engineer
- Machine Learning Scientist
- Applications Architect
- Enterprise Architect
- Data Architect
- Data Engineer
- Business Intelligence (BI) Developer
- Statistician
- Data Analyst

Recently, the IT Industry has shifted towards business process automation. Robotic Process Automation (RPA) is one of the widely adopted techniques not only in the IT industries but also in the non-IT industries to automate their monotonous and laborious tasks to gain efficiency, accuracy, and cost management. RPA can be implemented with the help of various RPA tools such as Blue Prism, Automation Anywhere, UiPath, HelpsSystems, and Pega Robotics.

According to the reports submitted by the UiPath company, it is anticipated that in India alone more than 2,00,000+ jobs will be created in the RPA industry. Currently, according to the reports submitted by job portals sites of India, there are around 16,436 RPA job opportunities in Monster.com, a total of 23,330 job opportunities in Naukri.com and 530+ RPA job opportunities in Indeed.com. Out of which most of the organisations are seeking candidates a minimum of practical experience in using the RPA tool. The RPA will be adopted widely among a range of industries such as Manufacturing and Retail, Banking and Financial Services, Educational Sector, Aviation, Oil and Gas, Insurance Sector, Logistics, BPOs, KPOs, Customer Services and HealthCare industries.

This programme helps to make career in Big Data Analytics. Huge amount of raw, semi-structured and unstructured data is generating at uncontrollable pace. It features data as assets which can be used to analyse, correlate and predict. In almost every organisation, there is a requirement of Data Scientist and Data Analyst to perform data oriented tasks. Expertise in Big Data Analytics domain leads to handling of business intelligence, large scale data mining and data warehousing projects. Course covers dynamic paradigm in business analytics & optimisation, data warehousing & multi-dimensional modelling, Business Intelligence, and Web & Graph Analytics.

Curriculum

- Software Foundation and Programming1
- Software Foundation and Programming2
- Object Oriented Programming
- Information Management Basics
- Enterprise Reporting Using Business Intelligence
- Foundation in Big Data using Hadoop
- Big Data Programming

With the rapid technological advancements in mobile technology, integrated circuitry and increases in computer processor speeds, the future of mobile computing looks increasingly exciting. Mobile Computing is the ability to use portable computing devices in wireless enabled networks to stay connected and access data while on the move. As demand of technological environment in new era of computing technology, we offer B.Tech. in CS with specialisation in mobile computing.

The course objective is to provide students with an understanding of mobile computing technologies and how these technologies are utilised and integrated to meet specific business needs. The stream of Mobile Computing is specialisation and expertise oriented. The course also builds a solid foundation of software development skills and introduces the specific skills needed for developing mobile applications. Students will also gain a necessary understanding of current technologies and architectures that provide the network and communications infrastructure for mobile-enabled enterprise computer systems. Students will also develop skills in the design of modern network systems, using appropriate technologies, architectures and techniques.

The career in mobile and wireless workforce is very demanding now a days. Escalating use of wireless devices such as smart phones, notebooks, cell phones and laptops has generated motivation as well as competition to ensure these tools function effectively and securely.

Career Opportunities

- Mobile Solution Specialist
- Mobile Application Developer
- Mobile Architect / Mobile Software Platform Architect
- Telecommunications Tower Installation and Maintenance Engineer
- Mobile Security Expert
- Mobile Phone Verification Manager

Curriculum

- Enterprise Application Development
- Mobile/Hybrid Application Development
- Enterprise Mobile Applications Development & Deployment

Artificial intelligence (AI) promises to deliver some of the most significant and disruptive innovations of this century. Self-driving cars, robotic assistants, and automated disease diagnosis are all products of an emerging AI revolution that will reshape how we live and work. And with demand for talented engineers more than doubling in the last few years, there are limitless opportunities for professionals who want to work on the cutting edge of AI research and development.

Career Opportunities in Artificial Intelligence:

- Big Data Engineer
- Business Intelligence Developer
- Machine Learning Engineer
- Research Scientist
- AI Data Analyst
- Product Manager
- AI Engineer
- Robotics Scientist

Embedded system developers write code that powers refrigerators, printers, ovens, or toasters that makes everyone's life easier. The embedded coding runs before the operating system even loads. These developers work on the operating system in real-time and write the real hardware code to function correctly. They work closely with hardware engineers because they write device drivers. Embedded system developers can look forward to a bright future. Qualcomm, Intel, Tata Elxsi, HCL Technologies all of these companies hire embedded software engineers.

Simultaneously, IoT is making significant strides as more things are getting connected to the internet. Many experts predict that two-third of the new businesses will be dependent on IoT by the end of this year. Keeping this in mind, IoT offers the potential for a “fourth industrial revolution.” IoT ecosystem consists of intelligent devices that are web-enabled and use embedded systems such as sensors, processors, and communication hardware that collect the information and then share, analyse the data they collect and then act on it. The data obtained by the sensors of an IoT in the environment is shared by connecting to an IoT gateway that sends the data to the cloud for analysis. The data is analysed locally. These devices can often connect to similar devices and share the information and then act on the data they acquire from each other.

The technological growth, the Internet, and availability and sharing of information have tremendously increased information threats to organisations and individuals making it a challenge for users and system administrators to preserve security. Due to the requirement of sophisticated knowledge and tools to keep systems secure, there is a big need in India and around the world for information security professionals who are well educated about the various aspects of information security. The emergence of Information Security has resulted in the opening of various professional avenues for young professionals, creating a market ready for young IT graduates who can understand the risks involved in data security. With lucrative packages, data security has become the new professional direction for many students. Information Security specialisation will enable students to attain an in-depth knowledge of system and/or managerial aspects of information security, so that they can actively contribute to the prevention, detection and management of security threats, and/or the development of secured systems. It will also allow students with such ability to be easily identified by the IT industry. The main objective of this programme is to train students to become information security professionals for the high-end jobs in security industry.

Cloud computing (or ‘on-demand computing’) is a key distributed systems paradigm which has been gained much attention during the last few years. Cloud computing is a type of Internet-based computing, where data, information and shared resources are made available to computers and other devices on-demand. Cloud technologies are ubiquitous, affecting our routine lives any moment we access the World Wide Web, use a mobile app, or go for online transactions. Cloud computing and storage solutions provide users and enterprises with numerous competencies to store and process their data in third-party data centers. Cloud computing is a model for facilitating pervasive, suitable, on-demand network access to a common pool of configurable computing resources such as webs, servers, storage, applications and services that can be quickly provisioned and freed with nominal management effort.

Cloud computing offers many job types, from administrator roles to development-focused opportunities. Cloud-based systems contain huge amounts of data, making security essential. Jobs typically consist of making and implementing security strategies both internally and in partnership with cloud service providers in addition to monitoring systems for potential threats. Industry with its own regulatory protocols, such as healthcare or government need to integrate those security procedures into company’s cloud system. Cloud software engineers, specialise in developing software based on cloud service architectures and their underlying systems.

Some of the common jobs in this field are:

- System Engineer
- Security Administrator
- Cloud Security Engineer

Admission Details

Fee Structure

-

ADMISSION CALENDAR 2024-25

Selection of a student at JKLU will be finalised after a series of evaluative steps.

- Submission of the application form with required details.
- Personal Interaction Round with Faculty, provided the student meets the eligibility criteria.

- Merit-based assessment of candidates, focusing on attitude and aptitude, to help them benefit from the unique learning experience at JKLU.
- A minimum of 60% marks in English, Maths, Physics, and Chemistry in class XII.
- Additionally, a minimum of 60% marks in mathematics in class XII.
- Students in their final examination of class XII may apply; however, admission will be provisional, subject to achieving the minimum marks.
- Marks awarded by a recognized Central/State Board/University Examination in India or any foreign country recognized as equivalent to the 10+2 system by the Association of Indian Universities (AIU) will be considered. - Foreign Nationals/Persons of Indian Origin/Non-Resident Indian candidates can be considered for admission based on their marks in 10+2 or equivalent examination only.

Programmes | Duration | Fee Structure (in INR) for Academic Year 2024-25 | |||||

Academic Fee | Admission Fee | Caution Deposit (Refundable) | Total Fee | ||||

B. Tech | 4 | 2,60,000 | 5000 | 10000 | 2,75,000 |

Fees for accommodation, food and other facilities – 2024-25 (in rupees)

Type of Room | Double Room – 2 Students | Double Room – Single | Triple Room – 3 Students | Triple Room – 2 Students | ||||

AC | Non-AC | AC | Non-AC | AC | Non-AC | AC | Non-AC | |

Hostel Fee | 80,000 | 65,000 | 1,20,000 | 97,500 | 70,000 | 57,000 | 88,000 | 70,000 |

Utility charges | 25,000 | 10,000 | 45,000 | 18,000 | 20,000 | 8,000 | 27,000 | 11,000 |

Sub-Total | 1,05,000 | 75,000 | 1,65,000 | 1,15,500 | 90,000 | 65,000 | 1,15,000 | 81,000 |

Mess Advance (to be adjusted as per actual) | 55,000 | 55,000 | 55,000 | 55,000 | 55,000 | 55,000 | 55,000 | 55,000 |

Total | 1,60,000 | 1,30,000 | 2,20,000 | 1,70,500 | 1,45,000 | 1,20,000 | 1,70,000 | 1,36,000 |

- University reserves the right to increase academic fee by a maximum of 10% annually.
- Transport fees is 49,500 per year.
- The above-mentioned fee as applicable to citizens of India and SAARC Countries.
- Hostel and Transport Charges are on annual basis and subject to yearly revision.
- Hostel charges for one academic year and the students are not allowed to leave the hostel during the semester.
- Hostel fee, as above, is applicable to all boarding students.
- Hostel security deposit of 5,000 would be payable along with first year's fees. It is refundable at the time of leaving the Hostel.

* As per JKLU admission norms.

Lateral Admissions

Students pursuing undergraduate studies and seeking a transfer to JKLU from their current institution can apply now for Lateral Admission for the academic session 2024-2025.

--- Content from <https://jklu.edu.in/b-tech-scholarships/> ---

Speak to your Academic Advisor

8302223344

Scholarships are granted based on academic performance in Class XII marks in specified subjects, applicable for those who completed Class XII in 2023/2024.

For the assessment of scholarships based on 12th-class marks, the scoring is outlined as follows:

Scholarship % | Scholarship for B. Tech Programmes | ||

12th %age (Specified Subjects) | JEE Mains Score (Percentile, only for B.Tech.) | CUET Score (3 Specified Subjects) | |

100% | N/A | 95 or above | 600 or above |

75% | 93 or above | 90 – 95 | 550 – 600 |

50% | 86 – 93 | 80 – 90 | 500 – 550 |

25% | 80 – 86 | 75 – 80 | 450 – 500 |

15% | 70 – 80 | 70 – 75 | 400 – 450 |

For awarding scholarships based on CUET performance, the score will be computed as follows:

Moreover, there is a fee reduction initiative for certain student categories, capped at a maximum of 100 percent. A 25% reduction in academic fees is applied to the following individuals:

This award is granted annually, subject to the conditions outlined in the rules for continuation.

Students falling into the following categories will be entitled to a scholarship equivalent to 10 percent of the academic fee in the first year if they do not qualify for any above mentioned scholarships. This is applicable only for the initial year of studies:

In addition to the existing scholarships, including women's scholarships and special category scholarships (subject to a maximum of 100 percent), JKLU offers Early Bird Scholarships.

All scholarships are expressed as a percentage of Academic Fees exclusively. No scholarship covers Technology Fee, Hostel, Transport, and Mess charges.

The scholarship will be sustained for the subsequent year based on performance in the program at JKLU. CGPA of the previous year | Performance-based Scholarship for the next year |

9.5 or above | 100% |

>=9.0 or less than 9.5 | 75% |

>=8.5 or less than 9.0 | 50% |

>=8.0 or less than 8.5 | 25% |

>=7.5 or less than 8.0 | 15% |

Note:

A 25 percent scholarship for the dependents of JKO employees and siblings of students/alumni (including alumni pursuing a second degree) will persist as long as they maintain a CGPA of 6.0. This scholarship will be in addition to the merit scholarship mentioned earlier, subject to a maximum of 100 percent.

The 10 percent women's scholarship will be ongoing for all eligible women who do not receive any other scholarship, provided they maintain a minimum CGPA of 6.0.

Disciplinary Committee

The disciplinary committee and the unfair means committee hold the authority to propose a reduction or discontinuation of a scholarship if a student is found culpable of breaching academic integrity (such as copying or assisting others in assignments, projects, exams, etc., or engaging in plagiarism or similar acts) or violating disciplinary norms (including theft, fighting, property defacement, substance abuse, etc.).

In the initial instance, the scholarship will default to a lower level, and it will be entirely revoked after a second violation. However, these committees retain the discretion to recommend no impact on the scholarship (if deeming charges as minor violations) or suggest scholarship removal in the first instance itself (if charges are considered serious).

BY ROAD:

Jaipur is well linked by a good network of roadways and road transport to all the important cities . There are excellent bus services between Jaipur – Delhi by Rajasthan State Road Transport Corporation with buses approximately running every half an hour both ways. A bus journey typically takes 6 hours by (Volvo) or 6- 7 hrs by other deluxe buses. Travel by car from Delhi to Jaipur takes about 5 hours. The Jaipur bus stand is situated 25 Kms. away from Manipal University Jaipur (MUJ).

BY TRAIN:

The Jaipur station is situated within the city area. Indian Railways connects Jaipur from all important cities of the country and is one of the most cost -effective means of travel. Overnight trains arrives from many major cities including Delhi, Agra, Chennai & Mumbai. Jaipur Railway Station is 24 Kms away from the Manipal University Jaipur. A prepaid taxi / cab service can be used to reach Manipal University.

BY AIR:

Jaipur Airport is situated in the satellite town of Sanganer. It has also well connected domestic air links with many Indian cities such as Jodhpur , Udaipur, Delhi, Hyderabad, Kolkatta, Goa, Bangalore & Mumbai. The distance from Jaipur Airport to MUJ is 27 Kms.

--- Content from <https://jaipur.manipal.edu/indian-scholarship.php> ---

With the objective of encouraging meritorious students and academic excellence, the following categories of scholarships are offered to deserving students of I year of their respective programs. Students can continue to avail these scholarships in their higher semester by maintaining the requisite result. The

quantum and number of scholarships will be displayed on the website every year. Last date of submission of application for all the categories would be notified after admission process is over.

1. TMA Pai Engineering Scholarships

TMA Pai Engineering Scholarship (two scholarships in each branch of Engineering) would be awarded based on rank attained in MET test. This scholarship is restricted to top 5000 ranks in Manipal Entrance Test (MET).

To continue to get the scholarship, the student should maintain a CGPA of 8.0 or above, every academic year, separately, failing which the scholarship for next academic year would be withdrawn.

2. Sir M Visvesvaraya Scholarship

Name of Scholarships	Number of Scholarships	Program	Criteria	Scholarship Amount	Remarks
Sir M Visvesvaraya	250(25 in each program)		First cum First basis based on Marks in qualifying Exam	Up to 50% scholarship	To continue to get the scholarship, the student should maintain a CGPA of 7.0 and above without backlog, every academic year separately, failing which the scholarship for next academic year would be withdrawn.

3. Scholarship for Lateral Entry (B.Tech.)

Name of Scholarships	Number of Scholarships	Program	Criteria	Scholarship Amount	Remarks
B.Tech. Lateral Entry	250(25 in each program)		First cum First basis based on Marks in qualifying Exam	Up to 50% scholarship	To continue to get the scholarship, the student should maintain a CGPA of 7.0 and above without backlog, every academic year separately, failing which the scholarship for next academic year would be withdrawn.

4. Dr. TMA Pai Merit Scholarship

Scholarships will be offered to all UG programs with 3 scholarships to be awarded to the students on merit basis having more than 80% aggregate marks in 12th standard as per the criteria below:

To continue to get the scholarship, the student is required to maintain a CGPA of 8.5 or above every academic year, separately, failing which, the scholarship for next academic year would be withdrawn.

5. Rajasthan Merit Scholarship

One Scholarship in each stream of engineering and one in each non-engineering program (All the Hons programs and pass program of same domain would be considered as a single entity for the purpose of scholarship, ex. B Com (Hons) and B Com would be considered as single entity), will be given to the students from Rajasthan domicile as per the criteria:

To continue to get the scholarship, the student should maintain a CGPA of 7.5 or above every academic year, separately, failing which the scholarship for next academic year would be withdrawn.

6. Scholarships for Local Region Students

For the benefit of students from nearby villages, the scholarship will be awarded as per the following criteria:

To continue to get the scholarship, the student should pass every year without any backlogs, and student must maintain CGPA of 8.0 or above in each academic year separately, failing which the scholarship for next academic year would be withdrawn.

7. Financial Assistance for Sibling(s)

20% fee waiver will be offered on annual tuition fee for one sibling enrolled in the university in the I Year in the form of financial assistance. Documentary proof of sibling is to be submitted (ID card/Admission Letter and Aadhaar ids of both the candidates having mother's and father's name).

To continue to get this assistance, the student should maintain a CGPA of 8 or above in every academic year, separately, failing which the assistance for next academic year would be withdrawn.

8. Scholarship for BBA (Hospitality & Tourism) students

Scholarships to be awarded to 30% students of the total admissions in the BBA (Hospitality and Tourism) program on the first come first serve basis as per the following criteria:

To continue to get the scholarship, the student should maintain a CGPA of 7.5 or above in every academic year, separately, failing which the scholarship for next academic year would be withdrawn.

9. Tuition Fee Concession for MUJ Graduates

To promote and support MUJ graduates taking admissions in PG program in MUJ itself, a fee concession is offered as per the details given under:

S. No. |

UG score (CGPA) |

Amount of Concession on Tuition Fee |

1 |

8.5 and above |

20% |

2 |

7 – 8.5 |

15 15% |

3 |

5-7 |

10% |

To continue the scholarship, a student must maintain CGPA of 7.5 or above in each academic year separately.

10. Scholarship/ Preference in admissions for Local Region Students (PG Program)

This scholarship is provided to students from nearby villages (Dehmi Kalan, Thikaria, Sanjharia, Begas and Dehmi Khurd) under following program:

S.no |

8 |

LLM |

All Specialization as one entity |

Admissions under this scholarship would be given up to two seats in each program as mentioned above based on arrival of students' application and the availability of seats. Scholarship amounting to 50% of annual tuition fee is granted subjected to scholarship norms. Candidate must submit Domicile and other required documents.

To continue the scholarship, a student must maintain CGPA of 7.5 or above in each academic year separately.

11. Merit Scholarships for PG students

For M Tech students

To continue to get the scholarship, the student should maintain a CGPA of 7.5 or above, failing which the scholarship for the next year will be withdrawn.

For MA -J&MC (II) M Com - Financial Analysis (III) M Sc – taking all the specialization as a single entity (IV) M Arch – Landscape (V) MCA (VI) LLM – taking all the specializations as single entity.

Three Scholarships in each Program will be given to the students with highest aggregate marks in the qualifying exam (merit basis). The number and extent of Scholarships are as follows:

Numbers of Scholarships |

Amount of scholarships (% on Annual program fee) |

1 |

50% |

2 |

25% |

To continue to get the scholarship, the student should maintain a CGPA of 7.5 or above, failing which the scholarship for the next year will be withdrawn.

35,000/- | 40,000/- | 45,000/- |

Note: All full-time scholars are provided support to attend and present their findings in conferences whose proceedings are Scopus/WoS indexed. Up to 30,000 can be claimed in their entire duration (one-time).

13. Scholarship for "Differently-Abled" students

Scholarships will be offered to the students of all UG/PG programs as:

To avail the scholarship, the student must submit the certificate of handicap issued by the competent state / national government hospital / board (as per the guidelines issued by Ministry of Social Justice and Empowerment, Government of India). The certificate must be produced every year during the term of scholarship. To continue to get the scholarship, the student should maintain a CGPA of 7.5 or above in every academic year, separately, failing which the scholarship for next academic year would be withdrawn.

14. Scholarships for wards of Martyrs of Defence Personnel / Para Military Forces

Manipal University Jaipur salutes Martyrs of defence personnel / para military forces. 20% fee-waiver over the annual tuition fees is offered to the wards of martyrs of defence and para military personnel. The student must submit the certificate of martyrdom issued by the competent state / national government authority. To continue to get the scholarship, the student should maintain a CGPA of 7.5 or above in every academic year, separately, failing which the scholarship for next academic year would be withdrawn.

15. Scholarships for the wards of Single Mother

Scholarships will be offered to the students of all UG/PG programs as 20% fee waiver over the annual tuition fees. To avail the scholarship, the student must submit the certificate of single mother issued by the competent state / national government authority. The divorced cases will only be entertained upon the proper submission of divorce certificate/document issued by the competent state / national government authority. To continue to get the scholarship, the student should maintain a CGPA of 7.5 or above in every academic year, separately, failing which the scholarship for next academic year would be withdrawn.

16. Scholarships for Orphan Students

Scholarships will be offered to the students of all UG/PG programs as 20% fee waiver over the annual tuition fees. To avail the scholarship, the student has to submit the certificate issued by the state / national authority as per the guidelines of Women Development & Child Welfare department confirming the orphan status and affidavit by the applicant duly notarized given on a bond paper stating that the person is an orphan/destitute. To continue to get the scholarship, the student should maintain a CGPA of 7.5 or above in every academic year, separately, failing which the scholarship for next academic year would be withdrawn.

17. Scholarships for students of Higher Semesters

18. Female Merit Scholarship

Scholarship is to be awarded to one female candidate (topper) per UG program securing more than 80% aggregate marks in 12th Standard or UG Program. The scholarship will be awarded on Merit basis and amounts to 50% fee waiver over the tuition fees annually. To continue to get the scholarship, the student should maintain a CGPA of 8.0 or above and in every academic year, separately, failing which the scholarship for next academic year would be withdrawn.

19. Financial Support for attending Seminars/Conferences

Financial aid will be given to Pre-final and final year students to present R&D work/papers at Seminars/Conferences of repute, as per the conditions mentioned below:

Eligibility |

Number & Nature of Event |

Aid |

Pre-Final * / Final Year Students |

One International Conference and Two National Conferences/ Seminars |

Up to Rs. 15000/- Up to Rs. 5000/- |

*Any 2 of the above 3 events

20. Scholarships for Sports Persons

Scholarships will be given to the students with sport's background having more than 45% aggregate marks in 12th standard as per the following criteria:

20 seats (50% seats) out of estimated 40 seats to be allocated as fee waiver on first come first serve basis and the remaining 50% seats will be allocated as per merit of the students on approval of the committee.

Preference given up to 1% of total seats in Engineering and 2% in Non – Engineering programs in order of arrival of students' applications which is subject to availability of vacant seats.

To continue to get the scholarship, the student should not have a backlog, failing which the scholarship for next academic year would be withdrawn.

Please note the following in the context of all the above scholarships:

Students studying in various institutions under Manipal University Jaipur are eligible for education loans under iSMART Education Loans Scheme. Click here for more information..

--- Content from <https://jaipur.manipal.edu/admissions.php> ---

B.Tech in Robotics and Artificial Intelligence is an AICTE recognized program, first of its kind, will be started in upcoming year at Manipal University Jaipur, Jaipur. It is a four-year (eight semesters) full time undergraduate program in robotics and AI. In this program, multiple electives courses are developed under the minor and Major specialization with separate tracks, e.g., (drone technology and IOT systems) so that each student can develop in individual area of interest as per the industrial requirements...

--- Content from <https://jaipur.manipal.edu/foe/> ---

In the Faculty of Engineering we have nearly 9000 students and ~ 350 dedicated engineering and basic science faculty members. Each one brings their own individuality, interest and skills. Their collective dedication and passion weaves a beautiful academic tapestry that characterizes our values and aspirations, and propels us forward. For this I am most grateful to each member of this FOE family. From the Faculty of Engineering, we offer nineteen BTech courses, six MTech courses, and a robust PhD program. These provide a comprehensive educational platform catering to a diverse student community. To stay at the forefront of emerging fields and technologies, we recently introduced new BTech programs in BioTechnology, Computer Science & BioSciences, and Electronics and Communications Engineering with specialization in VLSI. These program have been well received from our students. This academic year, we are excited to introduce BTech in CSE (Cyber Security) and BTech in Robotics & AI.

Dr. Rawat is associated at various committees such Manipal Research Board (MRB) as members, Vice

Chairman of Library Advisory Committee (LAC). Additionally, Dr. Rawat has worked in various administrative activities at department level i. e. Coordinator of OBE Assessment, Member of IQAC, Coordinator of Board of Studies (Mechatronics) from last 3 years. He has published various research articles in international journals with and conferences of repute. His research interests are Reliability Engineering, Fleet Maintenance Planning, Simulation and Optimization and Reliability of Cyber-Physical System. He is actively associated with Industrial System Engineering Research Group at Indian Institute of Technology Indore. Dr. Rawat is also associated as editorial member and reviewer in various reputed international journals. Additionally, He has published one patent in the field of Biomedical engineering.

Manipal University Jaipur has a diverse pool of students from all across the country. MUJ provides the opportunities for the students to participate in multidisciplinary technical projects which gives them hands-on practical skills as required by the industry. In addition, there are various clubs which help them to develop all round personalities.

Directorate of International and Collaborations (DoIC) is headed by a team of dedicated staff and supported by the advisory council with a group of faculty and administrators representing key academic units are functional under this office.

Manipal University Network aims to create centres of excellence for research and innovation through its various campuses in India and abroad. The network has established hubs for cutting-edge research and innovation in emerging subjects like Nanotechnology, Wireless Network, Nuclear Engineering, etc.

--- Content from <https://jaipur.manipal.edu/placement-inernship.php> ---

Our internship programs at Manipal University Jaipur cater to the diverse needs and aspirations of our students, offering three distinct options: Summer Internships lasting two months, Other Internships spanning six months, and Long Internships extending for 10-12 months. These programs are meticulously crafted to provide students with immersive, real-world experiences, enabling them to apply theoretical knowledge in practical settings and gain invaluable industry insights. Whether students seek a brief glimpse into professional life during their academic break or a comprehensive, long-term engagement, our internship opportunities are designed to foster skill development, industry connections, and holistic professional growth. At MUJ, we are committed to equipping students with the practical expertise and confidence they need to excel in their chosen careers. Manipal University Jaipur follows a structured placement process to facilitate the recruitment of its students by top companies. The steps involved are listed below:

To contribute to society by developing green materials, bio-inspired materials and healthcare-associated products and technologies, demand for B.Tech. - Biotechnology in industries is increasing every year. Application of biological insight is also becoming popular in healthcare and industries such as materials, chemicals, food and fuels.

With a strong foundation in chemical and biological sciences and bioprocess engineering, MUJ biotechnology engineers will acquire excellent skills to tackle the complex problems society is facing. The engineering degree program B.Tech. - Biotechnology prepares students for careers in healthcare, industry, and research in emerging areas including chemical, biologicals, pharmaceuticals, cosmetics, brewery, biomaterials, biomedical engineering, water treatment, biofuels, and enzyme processing industries etc. It is also an ideal program for students planning to pursue higher education in India and abroad.

I can proudly state that we are going to graduate as world-class engineers with knowledge and ability to think out loud

The Department educates students in a very creative way and encourages them to think out of the box

This field of engineering teaches us how to apply physical sciences along with mathematics and our faculty help us gain good

The courses, expert lectures, industrial visits and other co-curricular activities manifolds our knowledge in technical as well as in other necessary

The University and the department of chemical engineering pushed every single student to excellence.

The experience and exposure offered by this university through academics as well as extracurriculars offer an all-round opportunity. If taken complete advantage of, the experience is transformative. Important industrial qualities like soft skills and team management are infused within a person during their time at this institution.

The department of Chemical Engineering at Manipal University Jaipur (MUJ), with its world class academic team and infrastructure have played a major role in shaping my career. The faculty of Chemical Engineering at MUJ, moulds and cares for their students, making them industry-ready and capable of facing real life problems. After completion of my bachelors at Manipal, I was fortunate to get admission at The University of Queensland, Australia where I pursued Master of Business in Human Resources & Marketing. I am currently working as an Employee Relations Assistant at G8 Education in Brisbane, which is Australias largest private provider of quality early childhood education. It has been a magnificent ladder of learning, proud to be a part of the very "first batch" of Chemical Engineering family of MUJ.

--- Content from <https://jaipur.manipal.edu/foe/b-tech-chemical-engg.php#Program-Fee> ---

B.Tech. - Chemical Engineering is designed to impart both theoretical and experimental knowledge and the curriculum includes: - Chemical Engineering laboratories with sophisticated equipment Computer labs with software such as ASPEN, ANSYS (CFD) etc. Regular guest lectures by Industry Professionals.

IAESTE program where students visit countries like USA, Germany, Poland, Turkey, Spain, Denmark etc.

Bachelor of Technology was started in the Department of Civil Engineering, Manipal University Jaipur in 2011. Ever since the inception, it has been imparting quality education to undergraduate students. Frequent expert lectures from construction industry experts and site visits are part of graduate program. Student can-do full-time internship in the industry throughout the eight semesters or may be engaged in laboratory work, which is instrumental for their career advancement. Collaboration with numerous prestigious international universities are the excellent opportunities. This course enables student to acquire the skills and knowledge to be able to design of civil engineering structures such as buildings, bridges, roads, canals etc. structures that defines tomorrow. The department aims to meet global changes in development, innovation, and application of technology in the service of humanity. The faculty consists of eminent specialists from diverse fields and there is commendable research ambience in the Department. This program also allows lateral entry.

My journey at MUJ's Civil Engineering Department was defined by its state-of-the-art laboratories. The hands-on experience in high-tech labs was instrumental in my learning. The faculty members, experts in their fields, provided the perfect blend of theoretical knowledge and practical insights, preparing us for real-world challenges.

Being part of Civil Engineering Department, at MUJ was a transformative experience. The high-tech labs, guided by experienced faculty, enabled us to bridge the gap between theory and practice. The

department's unwavering support, be it in academics or extracurricular activities, contributed significantly to my overall development.

Civil Engineering Department at MUJ was more than just an academic institution. It was a place where I witnessed my dreams come to life. The good placements ensured that our hard work paid off, and the well-educated faculties were pillars of support, always willing to guide us on the path to success.

MUJ's Civil Engineering Department offers more than just academic growth. The focus on overall development has been remarkable. It was an environment that nurtured leadership skills, teamwork, and extracurricular activities, ensuring a well-rounded education that prepared me for life beyond the classroom.

The highly motivational environment at MUJ's Civil Engineering Department pushed me beyond my limits. It was a place where dreams took flight, and every student was encouraged to achieve their best. The positive atmosphere not only shaped my career but also my personality.

The Civil Engineering Department at Manipal University Jaipur not only provided a strong academic foundation but also prepared me for a successful career with its exceptional placement opportunities. The well-educated faculties were always approachable, ensuring our doubts were cleared promptly, and their guidance was invaluable.

The Civil Engineering Department at MUJ focuses on more than just academics; it emphasizes holistic development. With a perfect blend of high-tech labs, well-educated faculty, and a strong career-oriented approach, it gave me the tools I needed to succeed in the real world.

MUJ Civil Engineering Department is not just a place of learning but a hub of motivation. The faculty's encouragement, the modern infrastructure, and a strong emphasis on personal development made my time there unforgettable.

I owe my successful career to MUJ's Civil Engineering Department. The faculty's commitment to nurturing talent, combined with excellent placement opportunities, made all the difference. The department provided an environment where learning extended beyond the classroom. The well-equipped labs allowed us to apply our knowledge practically, and the faculty's dedication to our success was evident in every interaction. The placement support ensured a smooth transition into the professional world.

My journey at Civil Engineering Department was a remarkable one. The quality education I received was enhanced by the state-of-the-art laboratories and well-qualified faculty. The department's focus on overall development, including leadership and communication skills, made me a well-rounded professional.

MUJ Civil Engineering Department provided a well-rounded education. The combination of hands-on lab experience, the encouraging faculty, and outstanding placement opportunities created a solid foundation for my career.

Mechanical engineering encompasses a broad spectrum of activities, ranging from designing intricate components to constructing large-scale machines and systems. Industrial sectors in which Mechanical Engineers have traditionally made substantial contributions include aerospace, automotive, chemical, computer and electronics, construction, consumer products, energy, engineering consulting and the government. In addition, the medical and pharmaceutical industries also present exciting opportunities. B.Tech. - Mechanical Engineering enables students to acquire the skills and the knowledge to be able to build machines that define tomorrow. With a well-stocked library and laboratory, students can learn the theory of Mechanical Engineering in-depth while also putting it to practice all within the campus. This program also allows lateral entry.

"Manipal University Jaipur is the perfect institution which has helped me to be a technically sound mechanical engineer. Faculties of the Mechanical dept. have gone above and beyond in ensuring that their students get a co holistic exposure which would fulfill the gap between practical and theoretical knowledge. MUJ offer an amalgamation of extra- curricular and academics which would help students be confident in their skills and hence achieve their goals."

Dept.of Mechanical Engg., MUJ has provided me immense support throughout my four year B. Tech Programme. The modern curriculum helped me in being industry ready and the laboratories and infrastructure has helped me gain technical knowledge relevant to the industry. I am grateful to be a part of MUJ family

I am grateful to be a part of MUJ. All the great faculties helped me in shaping my future and guided me throughout. The experience and learning will be cherished forever. Having a proper infrastructure in this field is very important as being a Mechanical Engineer seeks more practical knowledge than theoretical knowledge and I was lucky enough to get high quality laboratories with the finest faculties one could ask for

My four years at Manipal University Jaipur were great and a memory to cherish for a long time.It was full of learning and grooming oneself.It gave me an opportunity to meet different kind of people and learned many new things.I am thankful to all my faculties,mentors as well as the administration. Mechanical Engg. department of MUJ guided me in achieving my dream of pursuing M. Tech from an IIT. Overall it was a great experience at MUJ

Mechanical Engg. Dept. is one of the most equipped departments of MUJ. I was fortunate enough to be a part of MUJ family. The dedicated and highly qualified faculty members combined with high quality research facilities and placement opportunities makes it a perfect place to undertake undergraduate study Studying my engineering degree at Manipal University Jaipur was a great experience. The faculty members of department of Mechanical Engg. coupled with huge infrastructure helped me grow as an Engineer and become innovative in my career

It brings me immense pleasure in recollecting the memories at MUJ. My alma mater has been an integral part in fostering me both professionally and personally. I am extremely grateful and would like to extend my gratitude to all my mentors and faculties.

My educational journey in Manipal University Jaipur was truly transformational. I had the distinct pleasure of learning and interacting with professors from the department of Mechanical Engineering. Their guidance and knowledge will always help me in navigating my way throughout my career. The faculty foster an environment of innovation and curiosity for students within the department with the excellent facilities and laboratories outside of the classroom.

At Manipal University Jaipur, amidst state-of-the-art infrastructure accompanied by highly intellectual, supportive and experienced faculties , i have witnessed our skills and competence rising to another level. The faculties at the Department of Mechanical Engineering with their precise curriculum and learner

centric environment helped us in shaping our career along with exposure to core companies through internships and placement drives.

Department of Mechanical Engg provided me the right platform to achieve my dream. Faculty members and lab infrastructure have been supportive in my pursuits. I thank them and management of MUJ for this.

Mechatronics engineering is an emerging field of engineering which involves the combination of different disciplines viz. Mechanical, Electronics & Electrical, Instrumentation and Computer Science Engineering. The course curriculum has been designed aptly to cater the ever-expanding demands of research and industry by consolidating the views of all stake holders. The main objective of the department is to impart a quality education and make the students industry ready. The Department of Mechatronics Engineering started its first B. Tech Program of Mechatronics Engineering in the year 2012. Presently the intake is 30 to cater the individual attention scenario. Faculty members in the department are well qualified and have rich teaching and research experience. The various specialization of faculties includes interdisciplinary areas like Robotics & Automation, Internet of Things, AI&ML, Industrial Engineering, Instrumentation & control and Micro-Electro-Mechanical Systems etc. The department has a team of 15 dedicated faculty members who can provide state-of-art exposure to students with quality approach to research and development.

I would like to thank MUJ and the Department of Mechatronics for providing a conducive environment for holistic growth and helping in achieving my dream of joining the defence services, while imparting the much required engineering knowledge and skills

I would like to thank MUJ and department of mechatronics for 4 years of brilliant experience. The department has been really helpful with many knowledgeable professors and the design of the course is also done in an excellent way to create a perfect balance between theory and practical domains. I am grateful to the department and Manipal university Jaipur for providing the opportunity and platform for learning and updating my knowledge in the field of artificial intelligence robotics. My mentors have really helped me to sharpened my skills and it has been an accelerating experience. Manipal is one of my 3 alma matter and has placed a crucial role in helping me achieving my dreams. It made me grow into a personal person that I am today. How matter what you pursue what part of the world you live in your alma matter is always there with you just like your friends and family. My experience at Manipal University is approved has been tremendous. The professors have been extremely helpful. They have guided me at each step. Manipal university Jaipur has one of the best infrastructure and great laboratories for practical studies. MUJ gives great opprotunities to get acquainted with the industrial evirnmnt and help build up the Practical knowledge. MUJ is one of the most resourceful places for a student to grow, both practically and academically. "Manipal University Jaipur more than a university, it's 'Utopian Gurukul". Manipal university had been a great experience for both my academics and personal life the journey of my Mechatronics engineering helped me a lot to tackle the challenges and the professors at Nepal were there with me throughout that. I wanted to express my sincerest gratitude for the excellent education and guidance that you provided me with during my time here. Thanks to your efforts I was able to secure agreed placement that perfectly aligns with my career goals.

The B.Tech Automobile Engineering program is a comprehensive undergraduate course that delves into the intricacies of automotive technology. This four-year program combines theoretical knowledge with hands-on practical experience, preparing students for a dynamic career in the automotive industry. Students learn about vehicle design, manufacturing processes, and advanced technologies such as hybrid and electric vehicles. The curriculum also covers topics like automotive electronics, engine design, and vehicle dynamics. Practical training includes workshops, laboratory sessions, and industry internships, allowing students to apply theoretical concepts to real-world scenarios. Graduates of the B.Tech Automobile Engineering program are equipped with the skills and knowledge to contribute to the ever-evolving automotive sector.

B.Tech. CSE program of Department of Computer Science and Engineering aims not just to prepare students for jobs but also to nurture their entrepreneurial drive, making them valuable contributors to both corporate and societal realms. With 120 faculty members, the department boasts a diverse and

experienced team committed to delivering quality education, guiding students, and conducting cutting-edge research across various fields.

The curriculum of the B.Tech. CSE is designed to provide students with a strong foundation in computer science principles and problem-solving skills. From the IV semester onwards, students can specialize in various cutting-edge areas such as Cyber Security, Cloud Computing, Artificial Intelligence, Machine Learning, Data Analytics, Computer Vision, Web Technologies, Full Stack Development, IoT, etc., through program electives. Additionally, the inclusion of Project Based Learning from the III semester ensures that students gain practical, hands-on experience, preparing them to tackle real-world challenges effectively.

The department's commitment to academic excellence is evidenced by its numerous industrial and international collaborations, which enrich the learning experience for students and enhance their career prospects. The strong emphasis on industry connections has resulted in outstanding placement records year after year. For graduating batch of 2023, forty companies visited the campus for B.Tech. CSE placements, all eligible students got placed with median salary of 9.4 LPA. The pinnacle of achievement was marked by Amazon's recruitment, offering the highest package of 46 LPA to 16 students, underscoring the Caliber of graduates produced by the department.

In recognition of its commitment to quality education, the B.Tech.-CSE program received accreditation from the National Board of Accreditation (NBA) in 2021 for a three-year period. Subsequently, in 2024, the program was re-accredited by the NBA for another three years, extending until June 30, 2027.

Thanks to my college education, I landed a fulfilling job at Shell and achieved my goals.(Placed In: Shell)

College has transformed my life, expanding my knowledge, building lifelong friendships, and preparing me for the future. (Placed In : Accenture)

MUJ offers several academic and personal development possibilities. (Placed In: Celebal Technologies private limited.)

Manipal University has worked hard to create us corporate professionals.(Placed In: Zscaler)

I learned a lot at MUJ. MUJ gave me fantastic people, lifetime connections, and many chances.(Placed In: Siemens)

Manipal University Jaipur prepared me well for the technical industry with excellent placement opportunities.(Placed In: Zscaler)

MUJ provided me with opportunities for overall development and a smooth, enriching placement experience. (Placed In: Shell)

I had an incredible and transformative learning experience over the past four years at MUJ. (Placed In: GUVI Geek Network Pvt. Ltd.)

--- Content from <https://jaipur.manipal.edu/foe/b-tech-artificial-intelligence.php#Program-Fee> ---

The four-year program in B.Tech. - Computer Science and Engineering (Artificial Intelligence and Machine Learning) offers cutting-edge courses in field of Machine Learning & Artificial Intelligence. This program focuses on subjects like Deep Learning, Soft Computing, Information Retrieval, and programming required to excel in this domain. Machine Learning has been very ubiquitous nowadays and has played a critical role in improving our daily lives. The University provides unique environment for overall development of students under the guidance of experienced, and qualified faculty members. Students can register for multiple elective subjects and have the option to choose elective subjects from various streams.

My time at MUJ has been incredible. My departments faculty has always pushed us to do better, to go the extra mile, whether its by participating in more hackathons, learning new skills, or attending more seminars and workshops. Thanks to my reliable professors ongoing assistance and the tools they make available, I was able to gain a lot of knowledge about the machine learning field, which intrigues me. I also learned how to develop end-to-end projects. How to create a projects SRS, among other things.

My college life till now has been on a different track. My learning graph has increase exponentially. We won the T-HUNT hackathon organised by our department. Our HOD sir helped us through the problem statements, helped us to think out of the box. So, I would like to thank my department for their constant support, and I really appreciate their way of pushing us to do more research in our field and grow. My journey till now at MUJ has been amazing , starting from hosting a major event to winning T-HUNT Hackathon which was conducted by our department. Under the mentorship of our highly skilled professors we completed a facial recognition attendance system.I would like to thank my department for their constant support and faith they showed in me.

My experience at MUJ has been fantastic so far. I have had the opportunity to attend various seminars and workshops during my first and second semesters, which has helped me gain insights into the field of AI and ML. In my fourth semester, I was privileged to become a Mentee at IBM and participate in hackathons, where my team and I won the first prize in the T-Hunt hackathon organized by our department. I sincerely appreciate my AI & ML department for their constant support and belief in me. Studying AI and ML at Manipal University Jaipur is a transformative experience. The departments expert faculty and cutting-edge resources prepared me for success. Practical learning through hands-on projects set me on a path to excel in these fields. I highly recommend Manipal University for AI and ML education. Being part of MUJs AI and ML department has enriched my learning journey. The collaborative atmosphere and diverse student body have nurtured my passion for AI. The support and opportunities here are exciting, and I am confident about my future in this field.

MUJs AI and ML department is a hub of knowledge and innovation. Faculty approachability, an updated curriculum, and industry connections have opened doors to incredible opportunities. My learning journey has been enriched by the collaborative atmosphere and a diverse student body.

My experience at Manipal University Jaipur has been nothing short of extraordinary. The AI and ML departments unwavering commitment to research and practical learning has equipped me with a distinct advantage in this ever-evolving field. The invaluable guidance from faculty and collaborative efforts with peers have truly set me on the path to success.

Studying at Manipal University Jaipur, especially within the AI and ML Department, has been transformative. Faculty expertise and innovation are inspiring. I have gained a deep AI and ML understanding. Hands-on projects prepared me for a successful career. The supportive environment and cutting-edge facilities made my journey incredible

Manipal University Jaipurs AI and ML department is exceptional. Updated courses and hands-on opportunities create a hub for AI enthusiasts. The mentorship and collaboration are invaluable. MUJ is a springboard to exciting opportunities.

B.Tech in Information Technology, a four-year undergraduate program, is meticulously designed for those engineering aspirants who are eager to make their mark in the dynamic world of Information Technology. The program immerses students in both foundational and advanced IT concepts. From full stack software development to cyber security, from data science and analytics to cloud computing and infrastructure, the course curriculum ensures a comprehensive grasp of the IT landscape. Beyond just theoretical knowledge, the program emphasizes practical application. The lab sessions, project work, and short/long internships are geared towards real-world challenges, preparing students for immediate industry immersion post-graduation. Coupled with soft skills training and workshops, students graduate not just as IT professionals but as holistic individuals, ready to lead and innovate. Furthermore, with the support of academic and industry Memorandum of Understanding (MoU), students have the unique opportunity to gain firsthand industry experience, ensuring they are both market-ready and future-forward.

Graduating from Department of IT, MUJ Jaipur was a stepping-stone towards my role as a Software Developer at Zomato, aiding in my professional journey.

A wonderful experience of learning with academic exposure to reputed industries and institutions.

IT department, Manipal University Jaipur offered a transformative academic experience with dedicated faculty, global perspectives, and research opportunities, shaping my foundation for future success.

MUJ had an important role in defining my achievement by giving me the skills, information, and support I required to flourish as an engineer and as a person. I am deeply appreciative of department of IT for playing an instrumental role in my academic and professional journey.

Manipal University Jaipur is a remarkable institution. I highly appreciate the role of department of IT in nurturing my overall development, shaping personality and imparting quality education. Highly recommended.

MUJ empowered me with a top-notch education and a diverse range of extracurricular activities, enhancing my skills and preparing me for a successful future. In a nutshell my college experience was marked by exceptional academic growth, fostering skills and knowledge that continue to propel my career achievements. Grateful for the experience at MUJ.

In a nutshell my college experience was marked by exceptional academic growth, fostering skills and knowledge that continue to propel my career achievements. Grateful for the experience at MUJ.

MUJ is not just an educational institution; it is a place that fosters holistic development, encompassing not only academics but also personal growth.

As a proud graduate of Manipal University Jaipur, I can confidently say that my time at MUJ was one of the most rewarding experiences of my life. Not only did I receive a world-class education, but I also had the opportunity to build lasting relationships with classmates and professors, gain valuable real-world experience through internships and extracurricular activities, and be a part of a vibrant and diverse community.

MUJ pushed me to develop myself holistically and helped me gain the self-confidence to reach my desired destination.

MUJ provided me with a conducive learning environment to constantly grow, with encouraging mentors who always guided me in the right direction. It played a major role in helping me develop and nurture my passions and academic interests. I am grateful to this university for providing me with ample exposure and for constantly supporting me.

The academic programs at Department of ECE, Manipal University Jaipur are designed and regularly revised with involvement of industry experts and hands-on experience with well-equipped VLSI lab, embedded system lab, simulation lab, Communication Lab, circuit lab, and semiconductor device fabrication lab.

The field of Electronics and Communication engineering encompasses many subfields like signal processing, semiconductor chip design, telecommunication, data communication networks, satellite and radar link setup, embedded systems, robotics and many more. This not only opens the doorway to job but also interdisciplinary specializations in higher studies like Embedded Systems, VLSI, Wireless communication, Signal Processing. ECE students have a wider choice to explore the diversified course bucket to pursue their interest in communication systems, devices, and electronic circuits, together with assembly languages, programming languages, and embedded systems. Therefore, the ECE students enjoy complete freedom to take up software as well as hardware industry. The ECE students also have the opportunity to explore top public companies and government jobs too.

MUJ provides a conducive environment for growth and learning and inspires its student to incessantly strive for excellence in every field. The state-of-the-art VLSI Labs and knowledgeable faculty made me pursue the VLSI field.

I was introduced to VLSI, the semiconductor world at MUJ. The faculties provide guidance, constant support and encouragement to students to grow in interested field.

The problem-solving and learner-centric environment at MUJ has provided me a perfect platform to shape my career in VLSI.

Constant experimental learning and classroom learning gave me a foundation to pursue a career in VLSI with a research publication in undergraduate studies.

Support and guidance provided by faculty helped me develop a strong foundation in the field and ultimately led to my success as a Hardware Engineer.

MUJ has helped me build my career in the stream which I have always looked forward to. Professors here are the best in their domain.

I can vouch that MUJ provided us a strong foundation in electronics that enabled us to excel in our field of work which industry requires.

Department of ECE motivated me to work hard with their highly industry-relevant curriculum and well-established laboratories offering plethora of opportunities to students interested in research

NBA Accredited B.Tech. Courses:CE, ECE, EE, EIC, ME & "A" Grade Engineering College
Infosys Jaipur

"Launching your career with an esteem firm like Infosys wasn't short of a dream come true and i would really like to dedicate a great part of my success to college. ECA not only provides you some of the finest education across the state but also foster you to evolve as a true professional. It fills my heart with joy unspeakable to be associated with a college of such stature."

Eicher Trucks and Buses

"I was really fortunate that I got my dream subject of mechanical engineering in ECA and those 4 years were an absolutely unforgettable period of my life.

Being a part of first batch gave me immense opportunity to explore my own way of learning and exploring myself. I learned to do everything from scratch by exploring myself whether it was preparing class notes or gathering information for suitable careers / higher studies.

Being a 1st batch we also had an additional responsibility to laid down the values of engineer for coming batches and thankfully this college is now standing on these value pillars of mutual understanding, respect, creativity, humanity and a continues learner).

All the traits and learnings which I got from this college helped me a lot to grow myself personally and professionally. I am thankful from bottom of my heart to all the teachers/college staff/my batch mates/juniors as well as local people of Ajmer (specially Adarsh Nagar) for their extra ordinary help and support in every situation. I got the number of friends for life from this college. Here only I attracted towards automobile sector and currently working in automobile industry.

Thanks ECA!"

Intuit

"An engineering should be a place of light, of liberty and of learning and I strongly believe Engineering College, Ajmer is one of the best places that offers students to grow and nurture holistically. Over the span of four years that I have been part of this college I have been able to excel academically due to the constant support of the ever enthusiastic staff as well as be part of all co-curricular events. I am proud to be a part of Engineering College, Ajmer. "

BMW, Sanghi Classic

"The best thing that could happen to me is ECA. Extremely nice people to work with. Everyone here creates a very comfortable atmosphere to work in. I'm grateful to be a part of this team as they provided me with an opportunity to launch my career very successfully. Thank you so much."

Accenture

"My experience with Engineering College, Ajmer is possibly the most admirable moments of my life. For the past 4 years of Engineering I have become accustomed to surrounding myself with those who were familiar to me as my friends and those who are like me. This experience turned out to be a more professional Engineer of me. I am proud to be a part of Engineering College, Ajmer. "

Intuit Inc, Mountain View, California

"A" Grade Engineering College

315. Scholarship Program Sponsored in Private by Alumni bodies | |

9. | Alumni Scholarship only for B. Tech. Girl Students (passing year 2024) New |

Based on merit and financial status of parents of girl student whose passing year is 2024 : Total-20,000/- Rs. Willingness will be made by the sponsoring alumni and approval of principal. Last date for applying 5 November 2023 : <https://ecajmer.ac.in/ScholarshipPortal/Girls/> |

10. | Scholarship Program supported by Alumni Association ECA | Merit and Family financial status based program coordinated with Head of departments of ECA to collate eligible students list who are seeking scholarships and supporting every year based on association aligned budget. |

11. | Arunoday Chitransh Scholarship(Starting from 2023-24) | Based on merit and financial status of parents of students in total 50,000/- Rs every year after the willingness of sponsoring team and approval of principal |

12. | Arundeeep Competent Engineer Readiness (ACER) program, an initiative in loving memory of Late Smt. Arunabala Saxena(Starting from 2023-24) | Based on merit and financial status of parents of students-50,000/- Rs every year and Periodic mentorship for identified students and making them future ready. Willingness will be made by the sponsoring team and approval of principal. |

Scholarship

The B.tech/Engineering courses listed below were created with the needs of the business in mind. All of these courses' curricula at JIET Jodhpur were created by veterans of the field. It provides a range of customized programs to meet the needs of the industry.

The applicant must have completed the 12th grade or the equivalent with a minimum of 50% in Physics, Chemistry, and Mathematics in order to be considered for admission to the Engineering Undergraduate Program.

Master of Technology, or MTech. It is a postgraduate course in a variety of engineering specialties. This program is intended for those who want to specialize in a particular area of engineering knowledge. An MTech degree enables students to work in the field of research and development. Students can choose from a variety of specializations mentioned Below. Applicants for the MTech degree program must have finished their BE/BTech degree and have obtained a valid GATE score.

For students interested in a specific field, earning a Doctoral degree has various benefits. A Ph.D. gives students a chance to enhance their subject-related horizons. Students pursuing a doctorate in philosophy may diligently pursue their study project at their own pace and without worry. Additionally, since a Ph.D. might open up job chances, the most prevalent reason for a student to pursue a Ph.D. is to enhance their work prospects. A Ph.D. from the Jodhpur Institute of Engineering and Technology is unquestionably the best option if research is your passion.

Why JIET Universe?

JIET B.Tech program provides one stage to pursue countless choice-based careers. JIET Universe generates the pursuit of knowledge and learning through an in-house training facility. Our vast network of alumni, over 12000+, is working in different Countries, covering leading companies.

Scholarship

JIET encourages students for Scholarships to promote the talents to pursue academic learning and leadership, thereby strengthening the roots of our future generation, focusing on a collective goal of making our young generation the knowledge superpower of the world.

FAQs

+ What are the engineering programs offered at JIET ?

JIET offers several engineering programs, including Computer Science & Engineering, Mechanical Engineering, Civil Engineering, Electronics & Communication Engineering, Electrical Engineering, and AI-ML and many more.

+ How do I apply for admission to the engineering program at JIET College?

To apply for admission to the engineering program at JIET, you can visit the official website of the college and fill out the online application form.

+ What are the eligibility criteria for admission to the engineering program at JIET ?

The eligibility criteria for admission to the engineering program at JIET vary depending on the program. However, for most programs, applicants must have passed 10+2 with a minimum of 50% marks in PCM (Physics, Chemistry, and Mathematics) from a recognized board.

+ What is the duration of the engineering program at JIET?

The duration of the engineering program at JIET is four years.

+ What are the job prospects after completing the engineering program at JIET?

JIET has an excellent placement record, with top companies visiting the campus for recruitment.

Graduates can work as software engineers, mechanical engineers, civil engineers, electronics engineers, and many other roles in the industry.

+ How is the engineering program at JIET different from other colleges in the region?

JIET has a well-established curriculum that emphasizes practical learning and research. It also has state-of-the-art labs and facilities that enable students to gain hands-on experience and be better prepared for their careers.

+ What is the fee structure for the engineering program at JIET?

The fee structure for the engineering program at JIET varies depending on the program. You can visit the college website to know the exact fee structure.

B.Tech in Computer Science & Engineering

Quick links

Fees

Placement

Scholarship

Overview

Computer Science and engineering is one of the most sought-after disciplines of engineering streams.

With the increasing demand for digitization in every sphere of life, there is a great demand for skilled manpower in the field of Computer Science & Engineering. During the study of computer science engineering, the student will go through subjects like Data structures, algorithms, programming languages, operating systems, database management systems, computer networks, computer graphics, and Artificial Intelligence Machine Learning Data Science.

Course Highlights

Course level | Graduate |

---|---

Duration | 4 Years |

Average Salary Package | INR 7,00,000 |

Highest Salary Package | INR 33,00,000 |

Examination Type | Semester System |

Program Eligibility | 10+2 or equivalent with a minimum of 45% marks |

Top Recruiting Organizations | Infosys, TCS, Capgemini, Wipro, Accenture, Tekion,& many more |

Educational Objectives

To provide an in-depth understanding of the fundamentals of Computer Science and create a foundation for lifelong learning to facilitate a progressive career in the IT Industry as an entrepreneur and in pursuit of higher studies.

To equip the students with technical and analytical skills to develop innovative solutions to complex real-life problems using existing and novel technologies.

To equip the students with good communication and interpersonal skills, interdisciplinary teamwork, and leadership skills to enable them to fulfill professional responsibilities.

To expose them to contemporary issues that will enable them to become ethical and responsible towards themselves, co-workers, society, and the nation.

About CSE
+ VISION

The department of Computer Science Engineering aims at being recognized globally as a promoter of computer technology and its application by encouraging all modern endeavors in academia, learning innovations, socially relevant research, and problem-solving.

+ MISSION

- To provide excellent undergraduate, postgraduate, and doctoral education for a productive career in industry, academia, and entrepreneurship.
- To develop competent professionals with problem-solving and analytical skills.
- To enhance theoretical, experimental, and applied skills of faculty and student in computer science through nationally and internationally recognized and socially relevant research.
- To continuously improve academic infrastructure and create an environment that teaches the ethical values and skills required for lifelong learning.

The future of CSE as a field of study is quite promising as recruiters all around the globe are continuously looking for computer science engineers who can drive the technological revolution. Some of the advantages of pursuing Computer Science & Engineering are:

+ PROGRAM EDUCATIONAL OBJECTIVES (PEOs)

- To provide an in-depth understanding of the fundamentals of Computer Science and create a foundation for lifelong learning to facilitate a progressive career in the IT Industry, as an entrepreneur and in pursuit of higher studies.
- To equip the students with technical and analytical skills to develop innovative solutions to complex real-life problems using existing and novel technologies.
- To equip the students with good communication and interpersonal skills, inter-disciplinary teamwork, and leadership skills to enable them to fulfill professional responsibilities.
- To expose them to various contemporary issues that will enable them to become ethical and responsible towards themselves, co-workers, society, and the nation.

+ PROGRAM SPECIFIC OUTCOMES (PSO)

- PO1: Engineering knowledge: Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
- PO2: Problem analysis: Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using the first principles of mathematics, natural sciences, and engineering sciences.
- PO3: Design/development of solutions: Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for public health and safety, as well as cultural, societal, and environmental considerations.
- PO4: Conduct investigations of complex problems: Use research-based knowledge and research methods, including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions
- PO5: Modern tool usage: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools, including prediction and modeling, to complex engineering activities with an understanding of their limitations.

- PO6: The engineer and society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.
- PO7: Environment and sustainability: Understand the impact of professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of and need for sustainable development.
- PO8: Ethics: Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
- PO9: Individual and team work: Function effectively as an individual and as a member or leader in diverse teams and in multidisciplinary settings.
- PO10: Communication: Communicate effectively on complex engineering activities with the engineering community and with society at large, such as being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
- PO11: Project management and finance: Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work as a member and leader in a team to manage projects in multidisciplinary environments.
- PO12: Life-long learning: Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

**** PROGRAM OUTCOMES (POs)****

- PSO1: The graduates will be proficient in fundamental principles and methods of Computer Science, Mathematical and Scientific reasoning and will be able to:
 - a) Apply fundamental concepts of integration, differentiation, vector calculus, probability & statistics, and discrete mathematics.
 - b) Design, create & evaluate algorithms and data structures appropriate to specific problems.
- PSO2: The graduates will possess in-depth knowledge of various components of hardware and system software. The students will have thorough understanding of:
 - a) Architecture of computer system and functionality of various units.
 - b) Role of operating system in managing the hardware units.
 - c) Computer networks and security related issues.
- PSO3: The graduates will be competent in Object Oriented Programming Languages and possess basic knowledge of several other programming languages.
- PSO4: The graduates will be able to exhibit knowledge of software engineering practices and project management and can work as a team leader/team member in developing software of multidisciplinary nature.
- PSO5: The graduates will possess ability to explore emerging technologies and provide innovative solutions to real time problems within constraints such as financial, environmental, social and ethical.

+ Course Outcomes

+ BRANCH BENEFITS

The future of CSE is quite promising as recruiters are continuously looking for computer science engineers who can drive the technological revolution. Some of the advantages of pursuing Computer Science & Engineering are:

Constant Change and Innovation With constantly upgrading computers and technology; the standards of workings are also constantly being updated. Engineers working in this field must keep learning to make certain that their skills don't become outdated. This is a wonderful benefit for anyone who likes to be mentally stimulated.

Outstanding Job Prospects It is an expanding field; therefore, computer science aspirants have a higher chance of getting a job with a high income. With the right skills, CSE graduates can have gratifying roles in leading industries.

Global Career Aspirants can find exciting job opportunities within and outside India. With a boom in online courses and online degrees, aspirants can learn the required skills to highlight their capabilities and flourish in their careers on a larger platform. Apart from on-site jobs, several remote opportunities are available for computer science graduates, allowing them to work conveniently from their current location.

+ CURRICULUM

Jodhpur Institute of Engineering & Technology, Jodhpur has been conferred with Autonomous Status for a period of ten (10) years from the session 2020-2021 to 2029-2030 hence as of now we are following

three different course curriculum. The details of the same are as follows:

Career Opportunities

The computer science field is full of exciting, diverse, and high-growth careers, ranging from software development to cyber security. Computing professionals can find themselves in a variety of environments in academia, research, industry, government, private, and business organizations â analyzing problems for solutions, formulating, and testing. Kickstarting your career with advanced communications or multi-media software and equipment or working in teams for product development. As freshers, the students can comfortably expect an average salary of between 4 lacks to 6 lacks annually in India. Along with these the, factors like your qualifications, skill set, and knowledge also impact your income to be above 6 lacks.

Department Best Practices

Industry co-teaching

Exposure to open-source tools

Innovative teaching-learning pedagogy

Project-based learning

Skill enhancement via technical clubs

International teaching and research collaborations

Access to e-resources and research databases

Enhancing self-learning attitude via experiential learning

FAQs

+ Why Choose Computer Science Engineering

- In a world where everything is going digital, the future of computer science holds great potential
- A skilled Computer Science Engineer has access to a wide range of career options
- Location is not a constraint anymore, as CS Engineers get ample opportunities to work from anywhere
- The demand for Computer Science Engineers is steady, and new avenues are demanding more creative & analytical minds
- B.Tech in Computer Science is helpful in supporting any other avenues as well in which you might be interested at a later stage. A digital presence is a requirement of everything nowadays
- Computing offers great opportunities for true creativity and innovativeness
- B.Tech in Computer Science also opens the gateway to entrepreneurship. It is not necessary that you are associated with any organization. You can identify the problem in the market and provide appropriate digital solutions accordingly
- Flexibility to choose a geographic location as the demand for skilled Computer Science Engineers is in every country. You may select the location in which you would like to settle.
- Does not get monotonous as the field of computer science is ever-evolving and new advancements push professionals for continuous learning

+ Do you offer department visits before taking admission?

YES, A campus visit is your opportunity to get a firsthand view of a college. College catalog, brochure or website can only show you glimpse of the department but, to really get a feel for the department / college, you need to walk around the quad, sit in on a class and visit the dorms.

+ What are the extra activities in which the students are involved for overall development?

Seminars, Webinars, Workshops, Technical and Cultural activities, Competitive Coding, Short Term Training Program, House on duties etc.

+ What preparation in computer science and related fields is required for admission into the graduate program?

Passed 10+2 examination with Physics and Mathematics as compulsory subjects along with one of the Chemistry/ Biotechnology/ Biology/ Technical Vocational subject.

Obtained at least 45% marks (40% in case of candidates belonging to reserved category) in the above subjects taken together.

or

Passed Diploma (in Engineering and Technology) examination with at least 45% marks (40% in case of

candidates belonging to reserved category)

+ Can I Get a Job in Forensics With a Computer Science Degree?

There's actually quite a bit to know about forensics as it has to do with evidence retrieval from computers and other electronic media, and a degree in computer science provides a graduate with a versatile skills and knowledge in computer use.

+ Can You Get a Good Job With Only a Bachelor's of technology in Computer Science?

It is perfectly possible to get a good job with only a bachelor's of technology in computer science. In fact, most high-paying, in-demand jobs can be pursued with a degree in this field.

+ Is there any mentor system present in the department?

Yes we have mentor system in our department. Every mentor is allotted with about 18 to 20 students to take care of them depending upon the programme and division. The interactions between them help the mentors have a comprehensive record of their activities, academic co-curricular achievements, and problems solving records.

+ Does a Computer Science Degree Require A Lot of Math Courses?

Most of degrees require some understanding of calculus and as well as many programs require students to study of Calculus III. Typically, computer science degree programs offer abstract algebra, discrete mathematics, graph theory, and other math courses alongside its computer science courses.

+ Is there any placement Cell/support provided for job search?

The college has a separate Career Development and Placement Cell which is an integral part of the college. It ensures and takes care to provide the best arrangements for placing its students in premier institutions. It also conducts training programs for the students to enable them to face interviews. These programmes include workshops on self-esteem, presentation skills, communication skills and mock personal interviews etc.

+ Is Computer Science a Growing Industry?

The computer science industry is projected to grow much faster than other industries over the next several years, according to the U.S. Bureau of Labor Statistics (BLS). Computer science is an excellent choice if you want a career with a solid future and high earnings.

+ Is Computer Science the Same as Programming?

Of course, computer science degrees include courses focused mainly on programming, but not many. Actually, programming is just one small topic covered by a computer science degree. Computer science is closely related to discrete mathematics and formal linguistic theory. Whether you choose a business, science, or software design path, you'll gain deep insight into algorithm analysis, quantitative problem solving, and modern computer architecture. Programming, by contrast, is what a person does when they use a programming language to transform an algorithm into something the machine can do.

+ What Courses Should I Take to Launch a Career in Mobile Computing?

The specific courses you should take are introductory computer science courses as well as data structures and algorithms courses. These introductory classes teach you about object-oriented programming, which is a fundamental programming skill that is used in Web and mobile application design.

+ What is the Difference between Information Technology and Computer Science?

At a glance, Information Technology careers are more about installing, maintaining, and improving computer systems, operating networks, and databases. Meanwhile, computer science is about using mathematics to program systems to run more efficiently, including in design and development.

+ What Type of Companies Hire Someone with a Computer Science Degree?

Amazon, Deloitte, CGI, Mindtree, Infosys, Cognizant, TCS, HCL, Google, Wipro, Tech Mahindra, IBM, Microsoft, Mphasis, Reliance, Capgemini, etc.

Scholarship

Overview

The Department of Mechanical Engineering at JIET (An Autonomous Institute with NAAC A Grade, affiliated with Bikaner Technical University) is the best Mechanical Engineering Department in western Rajasthan, situated in Jodhpur. It is actively associated with grooming engineering graduates in Mechanical Engineering by nurturing them with inputs from various basic and specialized subjects involving production, industrial, thermal, and design engineering. The department was established in 2003-04 at Jodhpur region with an intake of 60 students. NBA accredited the department in April 2011 for three years. After that, it was reaccredited twice, with the NBA cumulating three consecutive accreditations with NBA in a row. The department also got the approval of the Research Centre, RTU, Kota, in 2016-17 with two approved research supervisors. A wide selection of projects, seminars, and training facilities, besides technical visits to industrial enterprises, generates enormous potential and confidence among the students enabling them to independently handle life-size problems in their engineering careers. Currently, the department is conducting a 4-year full-time undergraduate course-B. Tech. in Mechanical Engineering with an annual intake of 120. Current subjects like Production Engineering, Operation Management, CAD/CAM, Ergonomics, Robotics, Mechatronics, etc., are highlights of the curriculum, besides ongoing advancements and computational product design and development to accept and face the global competition.

Course Highlights

Course level | Graduate |

---|---

Duration | 4 Years |

Average Salary Package | INR 7,00,000 |

Highest Salary Package | INR 33,00,000 |

About Mechanical Engineering

+ VISION

To be a center of excellence for education and research producing leaders in Mechanical Engineering serving nation and the world.

+ MISSION

- M1: To develop strong foundation in fundamentals to nurture quality education.
- M2: To promote knowledge, skill and ethical values among students for team spirit leadership and commitment.
- M3: To generate Entrepreneurial skills and promoting interest in higher education and research to face global challenges.
- M4: To inculcate excellent academic environment for lifelong learning.

+ PROGRAM EDUCATIONAL OBJECTIVES (PEOs)

- PEO I To build a strong foundation in Mathematics, Science, and Engineering fundamentals with soft skills.
- PEO II To develop competency to analyze, design, innovate and develop products regarding real-life applications.
- PEO III To generate ethical behavior and effective communication and nurture leadership qualities for a successful professional career to develop society for a productive economy.
- PEO IV To generate a multi-disciplinary approach to develop research and lifelong learning.

+ PROGRAM SPECIFIC OUTCOMES (PSO)

- PSO1: Graduates get competency to understand the practical aspects of Thermal Engineering, Automobile Engineering, Power Plant Sector, and Human Comfort applications for better hygienic life, etc.
- PSO2: Graduates get competency to understand the nature and behavior of various metals and manufacturing processes with their applications. PSO3: Graduates get competency in optimization and learn and cultivate economics in the system.
- PSO4: Graduates get competency to understand the basic knowledge of modern machining software with their application in the industry.
- PSO5: Graduates get proficient in demonstrating the application of various interdisciplinary subjects used in applied multi-disciplinary fields of application

** PROGRAM OUTCOMES (POs)**

- PO1: Engineering Knowledge: Graduates will be able to apply the knowledge of Mathematics, Science, Engineering fundamentals, and soft skills to solve engineering problems.
- PO2: b Problem analysis: The graduate will be able to identify, formulate, and review research literature to analyze complex engineering problems for substantiated/validated/justified conclusions using principles of Mathematics, Natural Sciences, and Engineering Sciences.
- PO3: c Design/development of solutions: The graduate will be able to design solutions for engineering problems and design system components or processes that meet the specified needs of humans, the environment, and industry.
- PO4: d Conduct investigations of complex problems: Graduates can use research-based knowledge and methods, including the design of experiments, analysis, and interpretation of data to provide practical conclusions.
- PO5: e Modern tool usage: Graduate can create, select and apply appropriate techniques, resources, modern engineering, and advanced IT tools to solve complex engineering problems with the scope of applications.
- PO6: f The engineer and society: Graduate can apply the contextual knowledge to assess social, health, safety, legal, and cultural issues with the consequent responsibilities relevant to the professional engineering practice.
- PO7: g Environment and sustainability: The graduate will be able to understand the impact of professional engineering solutions for society and demonstrate knowledge of sustainable development.
- PO8: h Ethics: Graduate will able to apply ethical principles and handle ethical norms in industry and workplaces.
- PO9: Individual and team work: The graduate will able to function effectively as an individual and as a team member.
- PO10: j Communication: Communicate effectively to comprehend the report and design documentation

to make productive execution.

- PO11: k Project Management and Finance: Graduate will able to understand the economics and manage finances, handle projects of national and international level.

- PO12: l Life-Long Learning: Graduate will able to learn in the broadest context of technological changes.

+ Course Outcomes

Mechanical Engineering Course Outcomes

+ BRANCH BENEFITS

Mechanical is an engineering discipline that involves applying physics principles for analysis, design, manufacturing, and mechanical systems maintenance.

It requires a solid understanding of core concepts, including mechanics, kinematics, thermodynamics, fluid mechanics, and energy. Mechanical engineers use the core principles and other knowledge to design and analyze motor vehicles, aircraft, heating and cooling systems, watercraft, manufacturing plants, industrial equipment and machinery, robotics, medical devices and more.

The sub disciplines of mechanical engg. are:

Mechanics, having composed of statics, dynamics, mechanics of materials, fluid mechanics and continuum mechanics.

Kinematics, is a study of the motion of bodies (objects) and systems (groups of objects), while ignoring the forces that cause the motion.

Mechatronics, is an interdisciplinary branch of mechanical engineering, electrical engineering and software engineering concerned with integrating electrical and mechanical engineering to create hybrid systems.

Robotics, is the application of mechatronics to create robots, which are often used in industry to perform tasks that are dangerous, unpleasant, or repetitive.

Structural analysis, is the branch of mechanical engineering (and civil engineering) devoted to examining why objects fail. Structural failures occur in two general modes: static failure, and fatigue failure.

Thermodynamics, is an applied science used in several branches of engineering, including mechanical and chemical engineering. At its simplest, thermodynamics is the study of energy, its use and transformation through the system.

Drafting or technical drawing, is how mechanical engineers create instructions for manufacturing parts.

Thermal Engineering, Application in Power plant, Process industries.

Aerodynamics, finds application in Aerospace Industries.

Career Opportunities

The lack of job offers to graduates has de-motivated students to choose Mechanical Engineering as a stream. But don't worry, Mechanical Engineering Jobs are nowadays available all over the nation and across the World. Jobs are increasing day by day and are offering lucrative opportunities to skilled Mechanical engineering students. With the advancement of new technology, the scope of Mechanical engineering has expanded, and the new domain includes robotics, geomechanics, nanotechnology, and computer-aided design. Many engineers opt for robotics and mechatronics, which are the combinations of Mechanical engineering streams with other streams.

FAQs

1. Why JIET For B.Tech In Mechanical Engineering?

- Apart from imparting knowledge and creating intellectually active minds, JIET helps to nourish the value of ethics and morality within the students. It aims towards overall personality development that can help them impact the world for the better.
- Best recruiters are willing to hire learned and ethically upright individuals from JIET like Infosys, TCS, Capgemini, Wipro, Accenture, Tekion, & many more.
- This 4 year-long course of Mechanical Engineering is made exciting through in-hand training in laboratories to gain competency in machining software and industrial application.
- All the necessary elements of learning in the field of B.Tech in Mechanical Engineering are levied at JIET. Students here get proficient in inculcating disciplinary knowledge in the multidisciplinary field of application in a broader perspective.

2. Why Choose Mechanical Engineering? ?

- Mechanical is an engineering discipline that provides you with various degrees of learning and analytical knowledge. It involves applying Physics principles for analysis, design, manufacturing, and mechanical systems maintenance.
- Mechanical engineers can use the core principles and acquired knowledge to design and analyze various bodies like motor vehicles, heating and cooling mechanisms, crafts for air and water, manufacturing plants, industrial equipment and machinery, robotics, medical devices, and more.
- Kinematics, robotics, aerodynamics, and structural analysis are some of the core disciplines that are an integral part of mechanical engineering. Excellence in gaining knowledge in this subfield can further accentuate the quality of work produced by the students
- Using knowledge of technical drawing one gets to instruct the mechanical functioning of machinery. All this is currently an expanding field that requires trained and learned engineers.
- Processing and resolving a complex problem to provide a detailed and analyzed report would be at your disposal through the polished knowledge that is gained in the years of learning.

3. What subjects are addressed in the curriculum of Mechanical Engineering?

Various subjects taught in Mechanical Engineering include: Engineering Mechanics, thermodynamics, strength of materials, manufacturing process and technology, industrial engineering, management principles, operations and supply chain management, laws for engineers, professional ethics, power generation, gas turbines, steam power plants, automobile engineering, machine design, heat and mass transfer, vibrations, aerodynamics and many more to address.

4. What are the different types of software used by Mechanical Engineers?

The different types of software used by mechanical engineers to design and check the performance of the equipment are-

- Solid Modelling Software: UG NXCAD, AutoCad, SolidWorks, CATIA, ProE/ Creo, etc.
- Simulation and Analysis: ANSYS, COMSOL, HyperMesh, etc.
- Programming Language: C++, JAVA, PYTHON, etc.
- MATLAB.

5. What are the opportunities for students passing out with specialisation in Mechanical Engineering?

With the world being on a forefront of Revolution 4.0 and IoT enabled technologies, a specialisation in mechanical engineering is a boon. The engineers are going to have full visibility of operations which will allow them to be responsive towards minute details related to manufacturing processes. The industry is going to require skilled employees leading to an increased number of jobs for mechanical engineers.

6. What is the future of mechanical engineering in India?

Breakthroughs in materials and analytical tools have opened new frontiers for mechanical engineers. Nanotechnology, biotechnology, composites, computational fluid dynamics (CFD), and acoustical engineering have all expanded the mechanical engineering toolbox. With new technologies, the industry is heading towards massive job opportunities for mechanical engineers.

7. What is the average salary of mechanical engineers in India?

The average salary of mechanical engineers in India is based on the following factors, including engineering branch, company, experience and skills.

At present, based on qualification, the average salary of a mechanical engineers varies between:

- B. Tech - 25-30K per month and ~50K after an experience of 4+ years

- M.Tech - 50-60K per month and ~80K after an experience of 4+ years

8. What are the top companies for Mechanical Engineering freshers in India?

The list of top companies for mechanical engineering freshers in India includes the following renowned names: TATA Group, Thermax, Larsen & Toubro, the Godrej Group, Ashok Leyland, Kirloskar, General Motors, ThyssenKrupp, Mahindra & Mahindra, etc.

9. Am I suited to a career in mechanical engineering?

If you enjoy creating practical solutions to problems and like turning your ideas into reality, then a career in mechanical engineering could be for you. While having a passion for maths and science is important, the diverse nature of mechanical engineering means it's a good fit for creative people with all sorts of interests.

10. What research opportunities are available in the department?

Along with teaching, the mechanical engineering faculty members are actively engaged in research and offer the opportunity for undergraduate students to participate. Pursuing research activities as an undergraduate student can be very exciting and complement your educational experience. The activities can range from setting up and running an experiment to conducting analytical or numerical analyses. Work is directly under the supervision of a faculty member and often involves graduate students. This opportunity allows students to gain unique hands-on experience in world-class basic and applied research. It is also a highly recommended addition to the resumes of students who intend to pursue graduate studies and research. To find a research opportunity, visit the department's Web page, and browse through the faculty research activities to identify an area that you find interesting. You should then contact the faculty member directly to learn more about their area of research.

Scholarship

Overview

The Department of Electrical Engineering primarily focuses on imparting quality education through innovative pedagogy. From conventional laboratories like Electrical Machine Lab and Power Electronics Lab to High Voltage Engineering Lab and innovation lab, the department is committed to preparing students for future challenges in the power sector. The graduates of the department venture out for a wide range of organizations, including reputed MNCs (TCS, Infosys Ltd., etc.), PSUs (PGCIL, SAIL, etc.), Armed Forces, and Indian Engineering Services (IES). The students are also successfully seeking admissions to reputed universities all around the world for further studies and global exposure.

Educational Objectives

Preparation: Electrical Engineering graduates should be competent enough in the practice of Electrical Engineering in industry, research & development, and public service units.

Breadth: To provide students with a solid foundation in mathematical, scientific, and electrical engineering fundamentals required to solve problems related to electrical engineering and to prepare the students for post-graduate programs.

Core Competence: To train students with good scientific aptitude in Electrical broadband so as to comprehend, analyze, design, and create novel products and solutions for the sustainable development of society.

Learning Environment: To motivate the students toward continuous professional development through individual effort and life-long learning for a successful professional career.

Professionalism: To inculcate a professional and ethical attitude, effective communication skills, team spirit, leadership, multidisciplinary approach, and the ability for self-education as well as self-employment amongst the students.

About EE

+ VISION

To become an eminent destination of technical education and research in the field of Electrical Engineering and to impart knowledge-based value-added education for economic, scientific, and sustainable development of the state as a whole and society in general.

+ MISSION

- To adopt advanced practices in the area of technical education.

- To develop competent faculty, researchers, and professionals who can contribute to sustainable development.

- To improve upon existing facilities for supporting research in cutting edge technologies and strengthening multidisciplinary approach.

- To emerge as a catalyst of synergy between technical education and social sciences so as to inculcate ethical values amongst technocrats.

+ PROGRAM EDUCATIONAL OBJECTIVES (PEOs)

- Preparation: Electrical Engineering graduates should be competent enough in the practice of Electrical Engineering in industry, research & development, and public service units.

- Breadth: To provide students with a solid foundation in mathematical, scientific, and electrical engineering fundamentals required to solve problems related to electrical engineering and to prepare the

students for post-graduate programs.

- Core Competence: To train students with good scientific aptitude in Electrical broadband so as to comprehend, analyze, design, and create novel products and solutions for the sustainable development of society.
- Learning Environment: To motivate the students toward continuous professional development through individual effort and life-long learning for a successful professional career.
- Professionalism: To inculcate a professional and ethical attitude, effective communication skills, team spirit, leadership, multidisciplinary approach, and the ability for self-education as well as self-employment amongst the students.

+ PROGRAM SPECIFIC OUTCOMES (PSO)

- PSO1: Demonstrate an ability to analyze, interpret and design the various components of Electric power systems.
- PSO2: Demonstrate an ability to analyze, interpret and design the various components of Electrical control systems.
- PSO3: Demonstrate an ability to analyze, interpret and design the various components of Modern Electric Drives.
- PSO4: Demonstrate an ability to analyze, interpret and design various aspects of Conventional and Non-Conventional Energy Systems for sustainable future.

** PROGRAM OUTCOMES(POs)**

Engineering knowledge: Apply knowledge of Mathematics, Science and Engineering to solve the complex engineering problems in analog and digital electronic systems.

**Problem analysis: **An ability to design electronic circuits, communication systems, conduct experiments, analyze and process data to report results.

Design/development of solutions: An ability to design digital, analog and hybrid systems to meet the specific requirements.

**Conduct investigations of complex problems: ** An ability to investigate the complex problems by methods as appropriate experiments, analysis and interpretation of data and synthesis of the information to reach valid conclusions.

Modern tool usage: An ability to use modern tools to design and analyze Electronics and Communication systemsâ performance.

The engineer and society: To apply engineering in global and societal contexts and develop eco-friendly products and solutions with awareness of contemporary issues.

Environment and sustainability: An ability to understand the impact of engineering solutions in a Global, Economic, Environmental, and Societal context.

Individual and Team work: An ability to function effectively as an individual, as a member or leader in diverse teams, and multidisciplinary settings.

**Ethics: ** An ability to understand and demonstrate professional and ethical responsibilities.

Communication: An ability to apply the skills for effective communication in both verbal and written form.

Project management and finance: Work as a member of the project team to find successful design and development solutions to the problems related to electronics and communication systems.

Life-long learning: An ability to clearly understand the value of lifelong learning and self-education.

+ Electrical Engineering Course Outcomes

Electrical Engineering Course Outcomes

+ BRANCH BENEFITS

An electrical engineer designs, tests, implements and repairs electrical systems and equipment. Electrical Engineers work on a wide variety of projects, including communication systems, electrical control systems, power generators, smartphones and vehicles. An electrical engineer performs variety of jobs depending on the types of projects they are associated with:

- Designing new electrical systems
- Developing cost estimates
- Ensuring electrical devices and systems meet safety requirements
- Troubleshooting and resolving issues
- Performing routine maintenance and upgrades
- Assessing the quality of electrical products and systems
- Testing electrical components, products and systems

- Leading research projects

Career Opportunities

The modern era is heavily dependent on electrical and electronics products. A developing country like India has a good demand for skilled electrical and electronics engineers to fill the positions at crucial manufacturing departments in private and public sector industries. Electronic and electrical engineers are highly employable and can find work in many areas, including the electronics, automotive, IT, gaming, telecoms, manufacturing, power, transport, utilities and construction industries.

Student Outcomes

At the department of Electrical Engineering, JIET, the work culture is designed in such a way that the students develop the following qualities:

Ability to tackle the needs of the modern power system.

Ability to apply knowledge of control systems and electric drives.

Ability to analyze, interpret, and designs Non-Conventional Energy Systems for a sustainable future.

Ability to analyze data, apply technical tools, and get the expected results

Ability to lay a strong foundation of innovative learning and creative ideas

FAQs

+ The mission of Jodhpur Institute of Engineering and Technology

- To educate students about technology, new inventions, discoveries, and several other studies with facts
- Aims towards developing moralistic and ethical values of students so that they can come out as the best professionals in their fields after graduating

- To prepare them for their career, more practical insights into the concerned engineering field that the students opt for after completing their 12th

- To give the best education to students and ensure they understand everything about engineering and related subjects.

+ Why JIET for B.Tech in Electrical engineering?

- JIET is one of the best engineering colleges in Rajasthan, offering the highest quality education to students opting for electrical engineering

- It is an autonomous college with a private course curriculum that depends on the current industry status, practices, and skill demand.

- The college is accredited with a grade A from NAAC, proving itself to be one of the best engineering colleges in the western part of India.

- It accepts students from both the country and international regions

- The college has a world-class campus with several facilities one might need during studies

+ Why choose Electrical Engineering?

- Electrical Engineering is one of the core branches with high demand in the market.

- As an Electrical Engineer, you can work in the government and private sectors, having the best options to choose the job suitable for you.

- You will be responsible for electrical work in a project, like designing and mapping the lines, installing high-tension cables and fiber optic cables, building electrical grids and installation, and so on.
- You can also work in the manufacturing industry and design new parts to bring innovation to electrical equipment units and appliances.
- Electrical engineers can easily work on chip or IC development, one of the most demanding industries.
- The knowledge and skills earned from B.Tech shape the future of electrical engineering in the best possible manner.

+ What is the intake of the department?

In Electrical Engineering Department the intake is as follows : B.Tech 120 ,M.Tech 18

+ How many faculty members are there in the department?

There are 15 faculty members in the department .

+ Are there teachers in the department with high experience in teaching sector?

Yes,the department has two research supervisors .Four faculty members are pursuing PhD.

+ Are there teachers in the department with experience of field work?

Yes,there are faculty members in the department with experience of field work.

+ How many students were placed in Electrical Engineering department last year?

Total 31 students out of 56 eligible students got on campus placement.

+ What is the future scope of Electrical Engineering in private sectors?

Electrical Engineering graduate has scope in many industries like renewable, IOT, Electric Vehicles, Robotics etc.

+ Does the department arrange internships/trainings for students?

Yes, the department arranges internships/trainings for students frequently.

+ What are the research facilities available for students in Electrical Engineering department?

Two PhD guides are associated with department .Department is well equipped with updated laboratory and departmental library

+ Are there any scholarship opportunities for Electrical Engineering students?

Yes,there are scholarship opportunities for Electrical Engineering students both in UG as well as PG Courses.

+ Are the laboratories equipped with sufficient instruments for smooth practical exposure?

Yes,laboratories are equipped with sufficient instruments for practical exposure,they are timely upgraded.

+ How enrich is the departmental library of Electrical Engineering department?

Departmental library of the Electrical Engineering department is enriched with Text books,reference books, journals, hand books etc. of reputed publications.

+ Is there any student club in Electrical Engineering department?

Yes the department has its student club which organizes activities and events for the department.

+ Does Electrical Engineering department organize social activities also?

Yes,at times social activities are conducted by human value cell in the department.

+ Do we get frequent information related to the attendance as well as results?

Yes ,the department provide information about the attendance and results to the parents through messages and tutor system.

Fees

Placement

Scholarship

Overview

Civil Engineering is the oldest branch of engineering. An evergreen branch with always increasing demand, Civil Engineering deals with the design, construction, and maintenance of various structures like buildings, roads, canals, bridges, dams, etc. During the four-year course, students undergo various subjects like Geotechnical, Structure, Environmental, Transportation, Surveying, Water Resources, Concrete technology, Building material, Estimation & Costing, Project Planning, etc. Students are

exposed to practical work by working in various established state-of-the-art laboratories.

Course Highlights

Course level | Graduate |

---|---

Duration | 4 Years |

Average Salary Package | INR 3,50,000 |

Highest Salary Package | INR 8,00,000 |

Examination Type | Semester System |

Program Eligibility | 10+2 or equivalent with a minimum of 45% marks |

Top Recruiting Organizations | Pinnacle Infotech Solutions, SkillVertex, Prakash B Azad & Associates, Shree Cement, Wipro, TCS, Infosys, Metro Survey Limited & many more |

Educational Objectives

The graduates of the program are likely to excel in a variety of new fields of civil engineering.

The program graduates would be able to practice civil engineering in infrastructure industries, public sector undertakings, or as entrepreneurs.

The graduate of the program will be able to continue higher education to enhance their knowledge.

The Graduates of the program will exhibit leadership skills, team spirit, and ethical practices.

About CE

+ VISION

To develop civil engineers of global standards with leadership skills to serve society.

+ MISSION

- To excel in the field of academics by adopting global best practices in Civil Engineering, Latest Technology, and Infrastructure Facilities.

- To foster research and develop new technology to improve civil engineering practices which can help in creating a safe, healthy, and economic living environment.

- To nurture leadership and entrepreneurial skills with social and ethical values in the young intellectuals through various programs which can promote industrial development and create job opportunities in the country.

- To Endeavour interdisciplinary skills to align with the current practices in civil engineering.

+ PROGRAM EDUCATIONAL OBJECTIVES (PEOs)

- PEO1 The graduates of the program are likely to excel in a variety of new fields of civil engineering.

- PEO2 The Graduates of the program would be able to practice civil engineering in infrastructure industries, public sector undertakings, or as entrepreneurs.

- PEO3 The graduate of the program will be able to continue higher education to enhance their knowledge.

- PEO4 The Graduates of the program will exhibit leadership skills, team spirit, and ethical practices.

+ PROGRAM SPECIFIC OUTCOMES (PSO)

- PSO1 The graduate will be able to practice the codal provisions like IRC, IS, NBC, and CPHEEO manuals for planning & designing civil infrastructures.

- PSO2 The graduate will be able to understand the importance of uncertainty & risk involved in infrastructure projects and subsequently propose solutions.

** Program Outcome (PO's)**

Fundamental Knowledge - Apply the knowledge of mathematics, science, engineering fundamentals and engineering specialization to the solution of civil engineering problems.

Problem Analysis - Identify, formulate, review research literature and analyse complex civil engineering problems reaching substantiated conclusions using principles of mathematics and engineering.

Design/Development of solutions - Design Solutions for complex civil engineering problems that meet the specified needs with appropriate consideration for the public health, safety and the cultural societal and environmental considerations.

Conduct Investigations of Complex Problems - Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data and synthesis of the information to provide valid conclusions.

Modern Tool Usage - Learn latest techniques, resources and engineering tools, modelling and simulation of complex engineering activities with an understanding of limitations.

Environment and sustainability - Understand the social and environmental effect of civil engineering projects and provide solutions for sustainable development.

The engineer and society - Apply reasoning learned by the contextual knowledge to assess socio-environmental, legal and cultural issues and provide proper solutions.

Ethics - Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.

Individual and Team - Function effectively as an individual and as a member or leader in diverse teams and multidisciplinary fields.

Project Management and finance - Demonstrate knowledge and understanding of engineering and management principles and apply them as individual or as a member or a leader of team on engineering projects.

Communication - Communicate effectively, both verbally and in writing on engineering activities with engineering community and with society at large.

Life-Long Learning - Recognize the need for and have the preparation and ability to engage in independent and lifelong learning in the broadest context of technological change.

+ COURSE OUTCOMES

Civil Engineering Course Outcomes

+ BRANCH BENEFITS

As Civil Engineering deals in the design and construction of various structures, our society, and even the ongoing advancements, cannot survive. Civil Engineering is the basic requirement of every development process, so this field has been and will always remain one of the most relevant and demanded professional fields. The key benefits of students pursuing Civil Engineering are:

Exponential Growth prospects: Growth in the field of Civil Engineering can be exponential, provided the graduate has sufficient technical know-how.

Potential for higher packages: A sound knowledge in the field of Civil Engineering can fetch lucrative packages for Civil Engineers. Also, good exposure gives a high rise in the coming years.

Opportunities for expanding network: A Civil Engineer working on various sites interacts with a lot of people, thus giving them an opportunity to expand their network, which in turn helps them to get more growth possibilities.

+ CURRICULUM

- Jodhpur Institute of Engineering & Technology, Jodhpur, has been conferred with Autonomous Status for a period of ten (10) years from the session 2020-2021 to the 2029-2030. For earlier batches, the institute is affiliated with Bikaner Technical University (BTU); hence as of now, we are following two different course curricula for final year students' syllabi of BTU and, for the remaining years, the autonomous syllabus. The details of both the syllabus of all years are as follows:

Career Opportunities

The department regularly conducts various workshops and expert lectures for students where faculties from IITs, NITs, and from various field organizations come and deliver their talks. The department also has a student chapter of the Indian Geotechnical Society and working on more such student chapters and clubs. The department regularly organizes debate competitions, project competitions, virtual campus drives, and other such activities to create skills for students which help them in their placement drives.

Department Best Practices

FAQs

+ The mission of Jodhpur Institute of Engineering and Technology?

- Ensure students can imbibe knowledge about the course program and the subjects involved.

- To provide industry-level education and shape their career for the future

- To train students on different aspects of engineering and technology and the real-time applications

- Aims to mitigate the weaknesses of students and transform them into their strength

- To offer tailored education to students having difficulties understanding the concepts

+ Why JIET for B.Tech in Civil engineering?

- Accredited as an A-grade college by none other than NAAC

- Topmost College in Rajasthan for Civil Engineering

- Pays equal attention to the future of the students opting for B.Tech in civil engineering

- Offers several specializations in Civil Engineering

- Ensures students can find the best job according to their skills

- World-class campus facilities to keep students focused on their studies

- Provides an ecosystem that helps in the overall development of a student

- Autonomous college with its routine, syllabus, and examination methodologies

+ Why choose Civil Engineering?

- Civil engineers can work both in the private and government sector with ease.

- The professionals are assigned several responsibilities of handling different tasks on-site and off-site.

- Students can learn more about structural design, material science, building and sustainable construction.

- Civil engineering often collaborates with IT to use software, develop unique solutions, and mitigate the industry's current challenges.

- The job opportunities in the civil engineering department are wonderful, with a high-paying scale

- Civil engineers are in demand, so the number of job postings won't fall short in hand.

- It is easier for civil engineers to work in the field and use their creative minds and skills to develop the best solutions.

- Civil engineers can also become entrepreneurs with their construction or consultancy firms.

+ What is the intake of the department?

120

+ How many faculty members are there in the department?

12

+ Are there teachers in the department with high experience in teaching sector?

There are many faculties who have teaching experience of 10 years and more.

+ Are there teachers in the department with experience of field work?

There are many faculties who have field experience of 2 years and more.

+ How many companies came last year for the placement of Civil Engineering students?

6

+ Which are the core companies coming for the recruitment in the department?

- PINNACLE INFOTECH SOLUTIONS

- SUNEDISON INFRASTRUCTURE

- KALEENDI NIRMAN

- Keen & Core Pvt. Limited

- Devdhara Construction Company

- Top Surveying (India) Pvt. Ltd.

- Unique Builders

+ What kind of jobs do graduates work?

A Civil Engineer graduate can work as site engineer or design engineer in the field work. A graduate can also go for various government jobs available for Civil Engineers.

+ What is the future scope of Civil Engineering in government & private sectors?

Various departments of state and centre recruits Civil Engineers like PWD, PHED, WRD, CPWD etc. With so high growth in infrastructure development in India, private sectors companies like L&T, Tata Projects, GMR, HCC, JMC and many such companies are hiring Civil Engineers for their ongoing projects.

+ Does the department arrange internships/trainings for students or does the student meet with companies for their own internship/training?

Yes, department also arranges as well as suggests the students for the companies for internship/training.

+ What are the research facilities available for students in Civil Engineering department?

Many faculties are engulfed in research work and the students remain associated with them and work in the field of research. Many students do off syllabus projects under the guidance of faculties for their enhancement in the field.

+ Are the laboratories equipped with sufficient instruments for smooth practical exposure?

Yes, all the laboratories are well equipped and the all possible experiments of graduate level are performed in these laboratories.

+ How enrich is the departmental library of Civil Engineering department?

Departmental library has hundreds of books available along with Indian Standard codes for the reference of students.

+ Is there any free time left for social activities while studying in Civil Engineering department?

Yes, students are always motivated to be a part in social activities. They are given time as well as guidance for the same.

+ Do we get frequent information related to the attendance as well as results?

Yes, college has the messaging system through which all updates including attendance, results and any such information are circulated to all students as well as their parents/guardians.

Fees

Placement

Scholarship

Overview

Electronics and Communication Engineering is one of the most sought-after disciplines of engineering courses. With the increasing demand for digitization in every sphere of life, there is a great demand for skilled manpower in the field of Electronics and Communication Engineering.

During the study of ECE, the student will go through the subjects like Digital electronics, IOT, Programming languages, Analog and digital communication, database management systems, Microwave engineering, Antenna and propagation, VLSI, Neural network and fuzzy logic, signal, and systems, Power electronics. The graduates of the department venture out for a wide range of organizations, including reputed MNCs, PSUs, Armed Forces, and Indian Engineering Services (IES). The students are also successfully seeking admissions to reputed universities all around the world for further studies and global exposure.

About ECE

+ Vision

To become a center of excellence through research and be recognized as a significant contributor to society that fosters a system bridging the gap between the Industry and Academia.

+ Mission

- M1: To provide state-of-the-art technical education in Electronics and Communication at undergraduate and postgraduate levels.
- M2: To impart education and updated knowledge to make students competent in areas of Electronics & Communication Engineering by providing quality education and training in global perspectives with an optimal mix of inputs pertaining to various domains like Optical Communication Systems, RF Electronics, and Analog & Digital Communication systems.
- M3: To foster a culture of higher education, entrepreneurship, and ethical future.
- M4: To provide updated facilities and environment to students, faculty members, and stakeholders for continuous improvement.

+ Program Educational Objectives (PEOs)

- PEO 1: Apply learning for the design & development of systems by applying fundamentals of mathematics, science, and computing in the field of Electronics and Communication Engineering.
- PEO 2: Enrich studentsâ€™ intellectual skills to analyze and solve electronic circuits.
- PEO 3: Work effectively as an individual and as a team member through industry-oriented training programs.
- PEO 4: Apply knowledge of Electronics and Communication engineering to solve problems of social relevance and/or pursue higher education and research.
- PEO 5: Engage in lifelong learning and career enhancement and adapt to changing professional and societal needs through human values.

+ Program Specific Outcomes (PSOs)

- Apply theoretical concepts for analyzing and designing Electronics & Communication Engineering systems to solve real-world problems.
- Acquire standard practices and skills that lead to solutions for academia/industry.
- Acquire & apply modern/recent Electronics & Communication Engineering tools through projects, seminars, and interactions with industrial experts to meet future challenges.
- Connect learning to blend aptitude and attitude by embedding moral values & ethics, becoming the candidate of first choice for placements, higher education, or becoming a successful entrepreneur.

+ Program Outcomes (POs)

- a. Engineering knowledge: Apply knowledge of Mathematics, Science, and Engineering to solve complex engineering problems in analog and digital electronic systems.
- b. Problem analysis: Ability to design electronic circuits, and communication systems, conduct experiments, analyze and process data to report results.
- c. Design/development of solutions: Ability to design digital, analog, and hybrid systems to meet specific requirements.
- d. Conduct investigations of complex problems: Ability to investigate complex problems using appropriate experiments, analysis, interpretation of data, and synthesis of information to reach valid conclusions.
- e. Modern tool usage: Ability to use modern tools to design and analyze the performance of Electronics and Communication systems.
- f. The engineer and society: Apply engineering in global and societal contexts and develop eco-friendly products and solutions with awareness of contemporary issues.
- g. Environment and sustainability: Understand the impact of engineering solutions in a Global, Economic, Environmental, and Societal context.
- h. Individual and Teamwork: Function effectively as an individual and as a member or leader in diverse teams and multidisciplinary settings.
- i. Ethics: Understand and demonstrate professional and ethical responsibilities.
- j. Communication: Apply skills for effective communication in both verbal and written form.
- k. Project management and finance: Work as a member of a project team to find successful design and development solutions to problems related to electronics and communication systems.
- l. Lifelong learning: Clearly understand the value of lifelong learning and self-education.

+ Course Outcomes

Electronics and Communication Course Outcomes

+ Branch Benefits

Electronics & Communication Engineering is a field that deals with the science of electrons, covering a wide range of applications like Television, Radio, computers, telecommunication, etc., which make our

lives easier and more enjoyable. ECE is the backbone of the modern communication system, ruling from rocket science to telecommunication. In the present-day scenario, modern applications like the Internet of Things (IoT), Robotics, and Embedded Systems highly depend on ECE knowledge. Our daily lives are intertwined with devices and elements connected through electronics and communication engineering. Opportunities to build a career post-engineering course include:

- IT industry, defense, telecommunications, electronic and hardware manufacturing, embedded systems development, software development, power sector, TV and music industry, automobiles, space communications, home appliances development, electronic security systems, mobile phone testing and development, communication protocols development, and optical communications development.

Key reasons to choose Electronics and Communications:

- A degree in ECE from the Best Electronics and Communication engineering college in India allows an individual to unfold and expand his/her knowledge in the world of electronics.
- Electronics is the leading edge of the world in the present time and also the wave of the future. As there is a human tendency to do things faster and better in this ever-evolving world, electronic equipment is also evolving and becoming more complex and is being used everywhere, in industries, businesses, and even at our homes. On a daily basis, new possibilities are being created as the world of electronics is evolving. This thus opens up several new opportunities for Electronics and Communication engineers.
- The ECE branch offers the opportunity to redesign the world around and make it even more efficient, connected, and sustainable.
- Electronics and Communications engineering jobs are among the highest-paid and have the highest job satisfaction.
- As an ECE engineering undergraduate, one gets thorough academic learning, hands-on experience, and leadership development.

+ Curriculum

Jodhpur Institute of Engineering & Technology, Jodhpur has been conferred with Autonomous Status for a period of ten (10) years from the session 2020-2021 to 2029-2030 hence as of now we are following three different course curriculum. The details of the same are as follows:

Career Opportunities

There are numerous opportunities to build a career after completing the engineering course. An individual can make his/her career in the IT industry, defense, telecommunications, electronic and hardware manufacturing, embedded systems development, software development, power sector, TV and music industry, automobiles, space communications, home appliances development, electronic security systems, mobile phones testing and development, communication protocols development, optical communications development among others.

FAQs

1. Why JIET for Electronics and Communication Engineering?

- The students are imparted knowledge by the best faculty who aim to provide analytical information, product information, and implementation information in the field of communication and electronics.
- JIET strives to provide students the opportunity to work with bigger firms and get hired on their merit and skill set. Companies like Wipro, Bloombrain, Infosys, Researchwire, etc are the top recruiters in this institution.
- It helps students to shape their analytical knowledge and apply it in real-life situations
- The institution aims towards lifelong enhancement of the individual to be adaptive and creative while being intellectually sharpened.
- The course mainly focuses on communication along with parts in the electric field. This knowledge can be applied to solve problems of social relevance.
- JIET trains young minds to bloom with creative ideas and excellence to pursue higher research and education for the betterment of the world and the advancement of the individual as a whole.

2. Why Choose Electronics and Communication Engineering ?

- The branch being highly in demand is the largest and fastest growing sector in the telecommunication industry
- The dynamicity of this branch of study makes it all the more important and filled with opportunities for personal as well as global growth and development.
- It is an ever-widening branch that demands rapid enhancements and there always remains a huge demand for employable and skilled engineers in this domain.
- It is a very labor-intensive industry where there remains increased production and demand by the government and businesses for communication equipment.
- One can learn to examine complex problems through analysis and using the correct modern tool set to design better layouts of the programs.
- Students are trained to create eco-friendly products that are sustainable for the long run as well as beneficial for the world.
- Future prospect is promising as the opportunity within the nation and across the globe is increasing at a

steady pace.

3. What is Electronics and why should one opt for Electronics & Communication Engineering at JIET? Electronics is the profession of applying scientific principles to the design and development, fabrication, repair & maintenance of Electrical/Electronic Machines, Instruments and Communication systems. Prior knowledge of Electronics is required in all domains of engineering like Chemical, Aeronautical, Electrical, Mechanical, Computer, Civil, Automobile sectors etc. All the requirements for the knowledge in electronics field fulfill at ECE department of JIET.

4. What are the scope and application areas of Electronics & Communication Engineering?

In the present era the field of Electronics & Communication plays an important role in almost every sphere of our life. Some of the Present and Emerging Technologies are: Wireless Communication; Direct To Home; Remote Sensing; Earthquake Monitoring; Microwave Communication; Speaker Recognition; Radar; Robotics; MEMS; Fiber Optics; GPRS; Electronics Cooling System; Thin Film Technology; Brain Computer Interfaces; Advanced Optical Networks; Display Technology; Electrocardiograph (ECG); Optical Computing; Wireless Sensor Networks; Embedded System; Teleconferencing; Nanotechnology; Internet Telephony; Satellite Communication; Smart Technology; Space Engineering.

5. What are the career opportunities available to Electronics and Communication Engineers?

An Electronics engineer can work at the frontier of high technology and is involved in research, creation of new ideas, design and development of new products and technologies, manufacturing and marketing activities. Electronics & Communication Engineering offers career scope in DRDO (Defence Research and Development Organization); ISRO (Indian Space Research Organization); Public and Private Sectors; Defence Services and Engineering services.

Electronics and Communication Engineers get equal opportunity to explore and build a career in IT sectors.

PM Modi's Make in India concept is a push to manufacturing sector and will open plethora of jobs for Electronics Engineer.

Set up of 8 electronics manufacturing hubs and 7 electronics manufacturing clusters across the country to reduce imports.

PM's Digital India vision: 2, 50,000 villages to be integrated with National Optical Fibre Network.

National Policy on Electronics: To make India a globally competitive destination for Electronics System Design and Manufacturing by 2020

Some job titles :

- Service Engineer
- Software Analyst
- Technical Director
- Field Test Engineer
- Senior Sales Manager
- Network Planning Engineer
- Customer Support Engineer
- Electronics and Communications Consultant
- Research & Development Software Engineer

6. What kind of Infrastructure is available in the department of ECE at JIET?

The department of ECE at JIET has state of the art, modern and well-equipped Laboratories and smart class rooms with adequate facilities. One separate laboratory course is associated with each core course in the undergraduate program. Some of the prominent Labs are Robotics Lab, Project lab, Digital system design Lab, MATLAB, RF lab, Antenna Lab, Advanced Communication Lab, Microwave Lab, VLSI lab, optical fiber & Optisys Lab, Microprocessor & controller Lab etc.

7. What is the placement record of students for the department of ECE at JIET?

Over the last few years, the ECE department of JIET has seen excellent placements, with over 80% of its students placed in public and private sectors. This includes students who opt for higher studies. The students have been placed as Design Engineer; Marketing Professionals; Sales Engineering; System level Engineer in various organizations including:

- Public Sectors: Indian railways, Airport authority of India, Doordarshan, Kenera bank, Corporation bank, PNB bank, BPCL, , ISRO, BEL, BHEL, BSNL, MTNL, SAIL, NTPC, Indian Railways, ONGC, GAIL
- Defence Services: Indian Air-force, Navy, Army
- Private Sectors: Capital IQ, TCS, HCL, Wipro, Hilti, L& T, Infosys, WIPRO, TATA Telecom, Siemens,

AIRTEL, Reliance Communication, Catalyst Business Solution, NSN, Ericsson

8. What are the programs offered to improve the employability of students at ECE department of JIET?

We organize regular workshops and conduct seminars for value addition of the students on the latest topics like in the area of Embedded Systems, Wireless Communication Systems Robotics Regular programmes for overall personality & career skill development are organized with the help of expert trainers. Regular Industrial visits are also organized to give the students about the feel of work culture in the industry. To groom its students and increase their chances of employability, the department conducts personality and skill development programs where the focus is on developing the following skills.

- Communication Skills.
- Goal Setting and Motivation.
- Summer Training.
- Industrial Visits.
- Time Management.
- Public Speaking.
- Group Discussions and interviews.

9. What is the scope of research in the department of ECE at JIET?

Research is the main focus in the Faculty of Engineering and Technology in general. Latest equipment and software are available in the department of Electronics and Communication Engineering and moreover the students can access e-Journals (IEEE & Springer etc), to explore latest developments. Department is also having the facility of PhD in Electronics and communication.

10. What kind of faculty is available in the department of Electronics & communication Engineering at JIET?

The core faculty in the department comprises distinguished academicians from the best institutions and leading professionals. The faculty lays great emphasis on continuous evaluation by means of well designed tutorials and practical experiments. Every effort is made to reinforce the concepts taught in the classroom. Apart from teaching, the faculty members have been vigorously pursuing research and have been regularly publishing research papers in various National and International Journals of repute as well as in prestigious conferences.

11. What are the various courses in the field of Electronics and Communication?

Following are the various courses in the field of Electronics & Communication in ECE department of JIET:

- B.Tech(Electronics & Communication Engineering)
- M. Tech (Digital Communication)
- PhD (Electronics & Communication)

12. What is the intake of the department?

- B.Tech (Electronics & Communication Engineering) - 60
- M. Tech (specialization in digital Communication) B.tech-18
- PhD â 5 candidates under each guide

13. What is the maximum package an ECE engineer received in last year placement?

ECE engineer has received 12.4 lac package in last year placement.

14. What does an Electronics & Communication Engineer do?

All of the applications which make our life easier and enjoyable such as Television, Radio, Computers, Mobiles etc. are designed and developed by Electronics and Communication Engineers Design and maintain satellites, which bring TV, telephone and Internet service into remote and rural regions ECE Engineers also creates advanced communication facilities like video conferencing which bring people together from all over the world Develops programs for various control and communication systems.

15. Whether the department of ECE at JIET is accredited by anybody in India or abroad?

Yes, the programme is accredited by the National Board of Accreditation under the Ministry of HRD Government of India (NBA) and National Assessment and Accreditation Council (NAAC).

16. What is the admission procedure?

Institute follows the counselling procedure for 85% seats and 15% seats are filled by direct admission which require 60% marks in 12th board exams. Whole process of admission follows the norms of the University and AICTE.

17. Is there an Alumni Association?

Yes Institute has an active Alumni Association. We have meetings of the Alumni Association every year.

The Alumni are in constant touch with the placement cell keeping informed about the recruitment status of the company, which they are working for support is always received in terms of donation of books and helping the junior students in getting their internship and project.

Overview

The technology of Artificial Intelligence and Machine learning is at the forefront of developing intelligent solutions to real-life problems. As our technology-laden society increasingly relies on digital data, machine learning is crucial for most of our current and future applications. Engineers with AI expertise would be needed in all the crucial domains such as Healthcare, Industry 4.0, Finance, Agriculture, Security, Law, and Environment Management in the near future.

Jodhpur Institute of Engineering and Technology is the first AICTE-approved college in Rajasthan. It has a wide array of educational courses to offer students to shape this digital timeline's future. It offers B. Tech in Future Artificial Intelligence and B. Tech in CSE (AI&ML) offered by JIET DAT.

Course Highlights

Course level | Graduate |

---|---

Duration | 4 Years |

Average Salary Package | INR 7,00,000 |

Highest Salary Package | INR 33,00,000 |

Examination Type | Semester System |

Program Eligibility | 10+2 or equivalent with a minimum of 45% marks |

Top Recruiting Organizations | Infosys, TCS, Capgemini, Wipro, Accenture, Tekion,& many more |

Educational Objectives

In-depth understanding of the fundamentals of Artificial Intelligence and Data Science and cultivating problem-solving ability and analytical skills.

To facilitate the students with data analytics and machine learning skills and motivate them to solve complex real-world problems using predictive and cognitive modeling.

To train the students with good communication, interpersonal and leadership skills to enable them to fulfill social and professional responsibilities.

Expose students to various contemporary issues which will enable them to become ethical and responsible towards society and work for the betterment of mankind.

About Data Science

+ VISION

The department of Technology aims at being recognized globally as a pioneer in the field of emerging technologies and their applications to benefit society through innovation-based development.

+ MISSION

- To provide knowledge-based academic infrastructure to bridge the gap between academia and industry.

- To create a nurturing environment for lifelong learning through value-based education and enhance analytical skills through continuous improvement.

- To develop competent professionals with a visionary approach.

- To develop competent professionals in the emerging areas of artificial intelligence and data science.

+ PROGRAM EDUCATIONAL OBJECTIVES (PEOs)

- PEO1: In depth understanding of the fundamentals of Artificial Intelligence and Data Science and cultivate problem solving ability and analytical skills.

- PEO2: To facilitate the students with data analytics and machine learning skills and motivate them to solve complex real world problems using predictive and cognitive modelling.

- PEO3: To train the students with good communication, interpersonal and leadership skills to enable them to fulfill social and professional responsibilities.

- PEO4: Expose students to various contemporary issues which will enable them to become ethical and responsible towards society and work for the betterment of mankind

+ PROGRAM SPECIFIC OUTCOMES (PSO)

- PSO1: The graduates are proficient in fundamental principles and methods of Artificial Intelligence, Data Science and other related mathematical and scientific reasoning and are able to:

- a) Apply fundamental concepts of advanced statistics, random variables, queuing theory, correlation and regression, and discrete mathematics.

- b) Design, create & evaluate statistical models for decision making.

- PSO2: The graduates possess in-depth knowledge of various components of artificial intelligence and data science. The students have thorough understanding of:

- a) Artificial Intelligence based systems and functionality of various units.

- b) Role of data science in the benefit of society.

- PSO3: The graduates are competent in logic based programming languages and possess basic knowledge of several interactive data visualization software.

- PSO4: The graduates exhibit knowledge of best data mining practices and optimization techniques and can work as a team leader or member in developing expert systems.

- PSO5: The graduates possess the ability to explore emerging technologies and provide innovative solutions to real time problems within constraints such as financial, environmental, social and ethical.

** PROGRAM OUTCOMES (POs)**

- PO1: Engineering knowledge: Apply the knowledge of mathematics, science, engineering fundamentals, and their engineering specialization to the solution of complex engineering problems.

- PO2: Problem analysis: Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.

- PO3: Design/development of solutions: Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for public health and safety, as well as cultural, societal, and environmental considerations.

- PO4: Conduct investigations of complex problems: Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.

- PO5: Modern tool usage: Create, select, and apply appropriate techniques, resources, and modern

engineering and IT tools, including prediction and modelling, to complex engineering activities with an understanding of their limitations.

- PO6: The engineer and society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.
- PO7: Environment and sustainability: Understand the impact of professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
- PO8: Ethics: Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
- PO9: Individual and team work: Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
- PO10: Communication: Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
- PO11: Project management and finance: Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects in multidisciplinary environments.
- PO12: Life-long learning: Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

+ BRANCH BENEFITS

- Rajasthan's first AICTE approved college to offer Under Graduate course in Artificial Intelligence and Data Science.
- UpGrad and Cipher School as Knowledge Partner.
- Builds a solid foundation in futuristic technologies through an industry-oriented curriculum.
- Hands-on with industry projects and regular sessions by industry experts.
- Ability to design intelligent solutions in a variety of domains & business applications
- Hands-on experience Data Science components, tools & technologies.
- Gain expertise in advanced topics such as Business Intelligence, machine learning, Big Data analytics, Statistics, Mathematics, data mining, visual analytics, cognitive analytics, etc.

+ Career Path

- ** Big Data Engineer **

Big Data Engineer are responsible for developing, constructing, testing, and maintaining frameworks like large-scale data processing systems and databases. In addition, they are trained to understand real-time data processing, offline data processing methods, and the implementation of large-scale machine learning.

- ** Business Intelligence Developer**

A business intelligence developer develops, deploy, and maintain Business Intelligence interfaces. These include query tools, data visualization and interactive dashboards, ad hoc reporting, and data modelling tools.

- ** Machine Learning Engineer**

Machine Learning Engineer focuses on researching, building and designing self-running Artificial Intelligence systems to automate predictive models. They develop and create the AI algorithms capable of learning and making predictions that define Machine Learning. Thus, we can say that they are responsible for creating programmes and algorithms that enable machines to take actions without being directed.

- ** Research Scientist**

They are experts in multiple AI disciplines, including applied mathematics, machine learning, deep learning, and computational statistics. In addition, they have extensive knowledge and experience in computer perception, graphical models, reinforcement learning, and natural language processing.

- ** AI Data Analyst**

AI Data Analyst builds analytical solutions and models by manipulating large data sets, integrating diverse data sources, performing ad-hoc analysis, developing reproducible analytical approaches to meet business requirements, and performing exploratory and targeted data analyses using descriptive statistics.

- ** Robotics Scientist**

Robotics scientists are skilled professionals who are responsible for the research, design and development of robotics systems. They ensure robots are cost-effective, reliable, and safe and make sure robots perform their functions properly.

- ** Artificial Intelligence Engineer **

An artificial intelligence engineer works with traditional machine learning techniques like natural language processing and neural networks to build models that power AI-based applications. The type of applications created by AI engineers includes Contextual advertising based on sentiment analysis, Language translation, Visual identification or perception.

- ** Machine Learning Architect **

Machine Learning Architect is responsible for designing and developing Machine Learning use cases using appropriate ML Algorithms and Tools. They transform Business Requirements into working real-life applications with Machine Learning modules and use cases.

- ** AI Architect**

The AI architect is like the chief data scientist, responsible for planning the implementation of solutions using the right technologies and evaluating the evolution of the architecture as the clients' needs change.

- ** Data and AI Consultant**

Data and AI Consultant translate business requirements into technical requirements. They craft high-level and detailed design documents, implement innovative solutions using the most recent technologies, and implement large data platform, business intelligence, advanced analytics, and multi-tier type solutions.

- ** IoT Architect**

An IoT architect sorts through all the data transmitted between networks from the various machines and gadgets used every day by millions of people. IoT architects help organizations fix business problems by designing IoT solutions. They are also responsible for creating and communicating the IoT concept, message, and architecture.

+ CURRICULUM

- Courses are skill-based and Industry Oriented
- Immense Domain Exposure
- Multidisciplinary Application Knowledge
- Major Thrust on Hands-on Training
- Involving stakeholders in the practices of curriculum design
- Courses for Holistic Development
- Latest technology skill development

FAQs

+ Why JIET for B.Tech in Data Science?

- JIET has a lot on its plate to offer for the excellence of the students in both practical and environmental spheres. It aims towards the integrated development of an individual that can cast a positive impact on the whole wide world.

- It aims to prepare students who can analyze and solve engineering problems with the help of their core principles and mathematical foundation gained through teachers of learning. This is also done through modern computing practices and advanced learning technology.

- JIET aims to create the future of the students and the nation by providing the necessary knowledge for the Development of various fields of Data Science. It helps the learners to excel in their professional career or motivate them to pursue higher education.

+ Why Choose Data Science?

- Data Science Engineers can strive towards constant learning for self-betterment and evolution into a more learned individual making them deemed fit for solving real-world problems.

- A Data Science Engineer can choose from a wide range of career choice post learning and expertise in Data Science. One can be a Data Scientist, Data Architect, Financial Modeller, Data Engineer, Data Science Consultant, etc.

- Data Science Engineers can design and develop solutions for complex engineering problems that meet the standards of safety, society, culture, environment, and public health. They can even use research-based knowledge and methods to provide valid conclusions.

- Students learn several methods of combining Machine Learning algorithms with technology, tools, and entrepreneurial explorations to extract and apply the raw data for application Development and information usage.

Scholarship

Overview

The technology of Artificial Intelligence and Machine learning is at the forefront of developing intelligent solutions to real-life problems. As our technology-laden society increasingly relies on digital data, machine learning is crucial for most of our current and future applications. Engineers with AI expertise would be needed in all the crucial domains such as Healthcare, Industry 4.0, Finance, Agriculture, Security, Law, and Environment Management in the near future.

Jodhpur Institute of Engineering and Technology is the first AICTE-approved college in Rajasthan. It has a wide array of educational courses to offer students to shape this digital timeline's future. It offers B. Tech in Future Artificial Intelligence and B. Tech in CSE (AI&ML) offered by JIET DAT.

Course Highlights

Course level | Graduate |

---|---

Duration | 4 Years |

Average Salary Package | INR 7,00,000 |

Highest Salary Package | INR 33,00,000 |

Examination Type | Semester System |

Program Eligibility | 10+2 or equivalent with a minimum of 45% marks |

Top Recruiting Organizations | Infosys, TCS, Capgemini, Wipro, Accenture, Tekion,& many more |

Educational Objectives

In-depth understanding of the fundamentals of Artificial Intelligence and cultivating problem-solving ability and analytical skills.

To facilitate the students with machine learning skills and motivate them to solve complex real-world problems using predictive and cognitive modeling.

To train the students with good communication, interpersonal and leadership skills to enable them to fulfill social and professional responsibilities.

Expose students to various contemporary issues which will enable them to become ethical and responsible towards society and work for the betterment of mankind.

FAQs

1. Why JIET for B.Tech in Artificial Intelligence & Machine Learning?

JIET aims to provide tools for sharpening the skillsets of the students by providing appropriate educational excellence in problem solving and skills of analytics. This acts as the basis for helping in AI and Machine Learning.

Jodhpur Institute of Engineering and Technology educates students with the most updated technological tools. This helps them be readily learned and aware of the latest version of AI and ML occurrences. It aims to create an environment of learning where students are intrigued to know more and strive towards constant betterment as individuals. It shapes them to be industry ready.

Students are encouraged in content-based learning by doing research and collaborative acts with the industry. It promotes the learners to have an ethical impact on society through their contribution to the field of research and development.

The design of the course is done in a way to help in the overall personality development of the student along with educational excellence.

Students are given broad exposure to a wide application fields such as computer vision, deep learning, pattern unrevealing, robotics, neural networks, etc, and several other tools to apply to the application design.

2. Why Choose Artificial Intelligence & Machine Learning?

The future of AI is vast like an ocean as there remains a broad domain for exploration. B.Tech in AI can help you analyze, comprehend and design the necessary changes and course of action towards the area needing amendments.

Expertise in AI and ML can help you identify the hidden statistical and computational terms and patterns necessary for designing the system of intelligence.

One can apply the learned set of knowledge and skills to develop innovative and unique solutions to the problem of algorithms in AI. This can eventually invite a bright and successful future for the learner.

With the correct use of tools and mechanisms of problem-solving AI can be applied to any field such as agriculture, education, and multi-disciplinary areas.

Learners can understand the impact of professional engineering and expertise in the knowledge that help them design solutions in societal and environmental contexts. Sustainable solutions are a priority for the future development of a fine world.

3. What is Artificial Intelligence?

Artificial intelligence is an extended branch of computer science concerned with building intelligent machines capable of performing tasks that typically require human intelligence.

4. What are the prerequisites for Artificial Intelligence?

Pre-requisites to learn Artificial Intelligence are:

- Basic knowledge of Statistics and modelling.
- Strong knowledge of Mathematics.
- Good command over programming languages.
- Strong data analytics skills.
- Ability to understand complex algorithms.

5. Why is Artificial Intelligence needed?

- Automates repetitive learning and discovery through data.
- Adds intelligence
- Adapts through progressive learning algorithms
- Analyzes more and deeper data
- Achieves incredible accuracy
- Gets the most out of data

6. What are the benefits of Using AI technology?

Nowadays, AI has become a part of our day-to-day lives. The scope for innovation and development in AI is enormous, and it will continue changing the world in diverse ways in the future.

- Automation
- Smart Decision Making
- Enhanced Customer Experience
- Medical Advances
- Research and Data Analysis
- Solving Complex Problems
- Business Continuity
- Managing Repetitive Tasks
- Minimizing Errors
- Increased Business Efficiency

7. What will be the career prospects after B Tech in AI?

The era of AI & ML is dawning upon us. After two decades of Google, social media and massive smartphone penetration, AI will be the next Big Thing in the technological revolution.

Career prospects after graduation in Futuristic Technologies are-

- Big Data Engineer
- Business Intelligence Developer
- Machine Learning Engineer
- Research Scientist
- AI Data Analyst
- Robotics Scientist
- Artificial Intelligence Engineer
- Machine Learning Architect
- AI Architect
- Data and AI Consultant
- IoT Architect

8. Which companies are hiring for Artificial Intelligence role?

Companies hiring for AI role are:

- Amazon
- Tesla
- Apple
- Microsoft
- Bosch
- Adobe
- Uber
- Walmart Labs
- JP Morgan Chase & Co.

- Accenture

- Wipro

9. What are some real-world examples of applications of Artificial Intelligence in the field?

- Google's AI-Powered Predictions

- Ridesharing Apps Like Uber

- Commercial Flights Use an AI Autopilot

- Spam Filters

- Plagiarism Checkers

- Social Networking

- Search & Recommendations in Online Shopping

- Apples' Siri

- Google Assistant

- Amazon's Alexa

10. Does Artificial Intelligence need coding?

Yes, Artificial Intelligence require coding to implement mathematics and logic.

11. What are the top languages used to code in Artificial Intelligence?

The top languages used for coding in Artificial Intelligence are PROLOG, JAVA and PYTHON.

12. How are Artificial Intelligence and Machine Learning related?

Artificial intelligence is a technology that enables the machine to simulate human behaviour. Machine learning is a subset of AI which allows a machine to automatically learn from past data without programming explicitly.

13. What are some real-world examples of applications of machine learning in the field?

- Image Recognition

- Speech Recognition

- Traffic prediction

- Product recommendations

- Self-driving cars

- Email Spam and Malware Filtering

- Virtual Personal Assistant

- Online Fraud Detection

- Stock Market trading

- Medical Diagnosis

- Automatic Language Translation

14. How are Deep Learning and Machine Learning related?

Machine learning focuses on developing a computer program that accesses the data and uses it to learn from itself. Deep Learning is a subclass of Machine Learning where the artificial neural network, the recurrent neural network, comes in relation.

Placement

Scholarship

Overview

Cyber Security is intended to mold students into well-prepared cybersecurity professionals and has been designed with a good balance between theoretical & practical aspects, analytical and architectural methods complemented by academic research, and industry best practices. The curriculum is specially prepared by experts covering all the needs and aspects a cyber security engineer needs.

Students are provided with a spectacular pack of dedicated faculty panels who train and educate the students in Cyber Security with a clear and fundamental understanding of Computer Science & Engineering.

Course Highlights

Course level | Graduate |

---|---

Duration | 4 Years |

Average Salary Package | INR 7,00,000 |

Top Recruiting Organizations | Infosys, TCS, Capgemini, Wipro, Accenture, Tekion,& many more |

Educational Objectives

The core aim of this program is to maximize the use of data in innovative methods to extract useful information. With the complete usage of the data, useful insights can be generated for the business's betterment. Hidden patterns are pulled in front, making way for incurring smarter decisions.

The curriculum of the Cyber Security program focuses on training and educating the students with hands-on experience and knowledge. A varied range of essential learning techniques is provided to the student in this course to sharpen their skill sets.

About Cyber Security

+ VISION

The department of Technology aims at being recognized globally as a pioneer in the field of emerging technologies and their applications to benefit society through innovation-based development.

+ MISSION

- To provide knowledge-based academic infrastructure to bridge the gap between academia and industry.

- To create a nurturing environment for lifelong learning through value-based education and enhance analytical skills through continuous improvement.

- To develop competent professionals with a visionary approach.

- To develop competent professionals in the emerging areas of artificial intelligence and data science.

+ PROGRAM EDUCATIONAL OBJECTIVES (PEOs)

- PEO1: In depth understanding of the fundamentals of Artificial Intelligence and Data Science and cultivate problem solving ability and analytical skills.

- PEO2: To facilitate the students with data analytics and machine learning skills and motivate them to solve complex real world problems using predictive and cognitive modelling.

- PEO3: To train the students with good communication, interpersonal and leadership skills to enable them to fulfill social and professional responsibilities.

- PEO4: Expose students to various contemporary issues which will enable them to become ethical and responsible towards society and work for the betterment of mankind

+ PROGRAM SPECIFIC OUTCOMES (PSO)

- PSO1: The graduates are proficient in fundamental principles and methods of Artificial Intelligence, Data Science and other related mathematical and scientific reasoning and are able to:

a) Apply fundamental concepts of advanced statistics, random variables, queuing theory, correlation and regression, and discrete mathematics.

b) Design, create & evaluate statistical models for decision making.

- PSO2: The graduates possess in-depth knowledge of various components of artificial intelligence and data science. The students have thorough understanding of:

a) Artificial Intelligence based systems and functionality of various units.

b) Role of data science in the benefit of society.

- PSO3: The graduates are competent in logic based programming languages and possess basic knowledge of several interactive data visualization software.

- PSO4: The graduates exhibit knowledge of best data mining practices and optimization techniques and can work as a team leader or member in developing expert systems.

- PSO5: The graduates possess the ability to explore emerging technologies and provide innovative solutions to real time problems within constraints such as financial, environmental, social and ethical.

** PROGRAM OUTCOMES (POs)**

- PO1: Engineering knowledge: Apply the knowledge of mathematics, science, engineering fundamentals, and their engineering specialization to the solution of complex engineering problems.

- PO2: Problem analysis: Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.

- PO3: Design/development of solutions: Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for public health and safety, as well as cultural, societal, and environmental considerations.

- PO4: Conduct investigations of complex problems: Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.

- PO5: Modern tool usage: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools, including prediction and modelling, to complex engineering activities with an understanding of their limitations.

- PO6: The engineer and society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.

- PO7: Environment and sustainability: Understand the impact of professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.

- PO8: Ethics: Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.

- PO9: Individual and team work: Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.

- PO10: Communication: Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.

- PO11: Project management and finance: Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects in multidisciplinary environments.

- PO12: Life-long learning: Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

+ BRANCH BENEFITS

- Rajasthan's first AICTE approved college to offer Under Graduate course in Cyber Security.

- Builds a solid foundation in futuristic technologies through an industry-oriented curriculum.

- Hands-on with industry projects and regular sessions by industry experts.

- Learn how to set up and secure computer systems and networks.
- Understand the information security risk management framework and methodologies.
- how to implement network security solutions and detect intrusions.
- the ability to conduct a digital forensics investigation admissible to a court. Be proficient in the practice of cybersecurity skills in real-world scenarios.
- Acquire hands-on experience of working in a commercial, industrial, academic, or government setting to help solve cybersecurity issues.
- Work on live projects, on-the-job training, and internships where, with effective cyber-risk management, you will be able to enable businesses to achieve smarter, faster and more connected futures, driving business growth.

+ Program Highlights

- Flexi credit Courses
- Six-month industry internship
- Industry collaboration
- Mentor-Mentee System and remedial teaching
- Industrial visits, Workshops, Technical events, Guest lectures
- Tinker Lab
- Best in class infrastructural facilities
- Specialized Labs for cyber security.

+ CURRICULUM

- Courses are skill-based and Industry Oriented
- Immense Domain Exposure
- Multidisciplinary Application Knowledge
- Major Thrust on Hands-on Training
- Involving stakeholders in the practices of curriculum design
- Courses for Holistic Development
- Latest technology skill development

JIET CYS I & II yr Syl & Sch

Career Opportunities:

Network Security Engineer

Cybersecurity Analyst

Cybersecurity Architect

Cybersecurity Specialist

Cybersecurity Manager / Officer

Chief Information Security Officer (CISO)

Cyber Defence Analyst

Digital Forensics Investigator

Digital Forensics Specialist

Digital Forensics Analyst

Department Best Practices

Industry co-teaching

Exposure to open-source tools

Innovative teaching-learning pedagogy

Project-based learning

Skill enhancement via technical clubs

International teaching and research collaborations

Access to e-resources and research databases

Enhancing self-learning attitude via experiential learning

Advanced ICT tools for effectual knowledge transfer

Program Highlights

Flexi credit Courses

Six-month industry internship

Industry collaboration

Mentor-Mentee System and remedial teaching

Industrial visits, Workshops, Technical events, Guest lectures

Tinker Lab

Best in class infrastructural facilities

Specialized Lab in AI, ML and data Science

Creative Thinking, Critical Thinking, Design Thinking, Entrepreneurship courses

Cyber Security Faculty

The department has state-of-the-art computing facilities as:

High-performance computing lab with Nvidia GPU

Data Analytics and Visualization lab

Deep Learning Lab with i7 machines and higher processing power

Computer Centre with machines in high configuration and licensed software required for teaching and research.

Cyber Security Laboratories:

Python Programming Laboratory

Design and Analysis of Algorithms Laboratory

Database Management Systems Laboratory

Linux Programming Laboratory

Data Warehousing and Data Mining Laboratory

Big Data and Business Analytics Laboratory

Data Science Laboratory

Fees and Financial Aid

FEES STRUCTURE

B.Tech. Fees Structure (Batch 2024-28)

S.No. | Particulars | 1st year | 2nd year | 3rd year | 4th year |

---|---|---|---|---|

- | Tuition Fees | 1,02,017 | 1,02,017 | 1,02,017 | 1,02,017 |

- | Development Fees | 11,089 | 11,089 | 11,089 | 11,089 |

- | Administrative Fees (Registration, University Exam Fees/Migration/ Prov. Degree/Alumni and Uniform and other charges) | 16,894 | 16,894 | 16,894 | 16,894 |

- | University Development Fees | 2,500 | 0 | 0 | 0 |

- | Student Enrollment Fees (Max.) | 700 | 0 | 0 | 0 |

Total | 1,33,200 | 1,30,000 | 1,30,000 | 1,30,000 |

2. Interim fee for the session 2024-25. This fee is subject to change as per the guidelines of State Level Fee Determination Committee, Government of Rajasthan and other regulatory bodies.

Scholarship (Session 2024-25)

Course: Engineering (CSE, AI & ML, DS and Cyber Security)

S.No. | Class XII | Scholarship |

---|---|---|

- | One time merit-based Scholarship (percentage greater than or equal to 90) | 15,000 in Tuition Fee |

- | One time JEE score based Scholarship (percentile greater than or equal to 90) | 25,000 in Tuition Fee |

Note: - 1. This Scholarship is valid only for first year.

- Student can avail only one scholarship whichever is higher.

Scholarship (Session 2024-25)

Course: Engineering (ME, CIVIL, EE & ECE)

S.No. | Class XII | Scholarship |

---|---|---|

2. | Percentage greater than or equal to 60 | 40,000 in Tuition Fee |

3. | Percentage less than 60 | 25,000 in Tuition Fee |

Note: - 1. This Scholarship is valid for all four years.

B.Tech. (Lateral Entry) Fees Structure (Batch 2024-27)

S.No. | Particulars | 2nd year | 3rd year | 4th year |

---|---|---|---|

- | Tuition Fees | 1,02,017 | 1,02,017 | 1,02,017 |

- | Development Fees | 11,089 | 11,089 | 11,089 |

- | Administrative Fees (Registration, University Exam Fees/Migration/Prov. Degree/Alumni and Uniform and other) | 17,394 | 16,894 | 16,894 |

- | University Development Fees | 2,000 | 0 | 0 |

- | Student Enrollment Fees (Max.) | 700 | 0 | 0 |

Total | 1,33,200 | 1,30,000 | 1,30,000 |

c) Interim fee for the session 2024-25. This fee is subject to change as per the guidelines of State Level Fee Determination Committee, Government of Rajasthan and other regulatory bodies.

Scholarship (Session 2024-25)

25,000 Scholarship on Tuition fees only.

Note: - This scholarship is valid for all three years.

BBA (Bachelor of Business Administration) Fees Structure (Batch 2024-28)

S.No. | Particulars | 1st year | 2nd year | 3rd year | 4th year |

---|---|---|---|

- | Tuition Fees | 54,118 | 54,118 | 54,118 | 54,118 |

- | Development Fees | 5,882 | 5,882 | 5,882 | 5,882 |

- | Administrative Fees (Registration, University Exam Fees/Migration/Prov. Degree/Alumni and Uniform and other charges) | 10,000 | 10,000 | 10,000 | 10,000 |

- | University Development Fees | 2,500 | 0 | 0 | 0 |

- | Student Enrollment Fees (Max.) | 700 | 0 | 0 | 0 |

Total | 73,200 | 70,000 | 70,000 | 70,000 |

c) As per NEP, an exit option is available after completion of the third year.

d) Interim fee for the session 2024-25. This fee is subject to change as per the guidelines of State Level Fee Determination Committee, Government of Rajasthan and other regulatory bodies.

Scholarship (Session 2024-25)

S.No. | Class XII | Scholarship |

---|---|---|

- | Percentage greater than or equal to 60 | 25,000 in Tuition Fee |

- | Percentage less than 60 | 15,000 in Tuition Fee |

Note: - 1. This Scholarship is valid for all four years.

MBA Fees Structure (Batch 2024-26)

S.No. | Particulars | 1st year | 2nd year |

---|---|---|

c) | Tuition Fees | 80,244 | 80,244 |

d) | Development Fees | 8,722 | 8,722 |

e) | Administrative Fees (Registration, University Exam Fees/Migration/Prov. Degree/Alumni and Uniform and other charges) | 16,894 | 16,894 |

f) | University Development Fees | 1,000 | 0 |

g) | Student Enrollment Fees (Max.) | 700 | 0 |

Total | 1,07,560 | 1,05,860 |

- Interim fee for the session 2024-25. This fee is subject to change as per the guidelines of State Level Fee Determination Committee, Government of Rajasthan and other regulatory bodies.

Scholarship (Session 2024-25)

15,000 Scholarship on Tuition fees, for percentage greater than or equal to 80 in graduation program

Note: - 1. This Scholarship is valid only for first year.

MBA (Integrated) Fees Structure (Batch 2024-28)

S.No. | Particulars | 1st year | 2nd year | 3rd year | 4th year |

---|---|---|---|

c) | Tuition Fees | 80,244 | 80,244 | 80,244 | 80,244 |

d) | Development Fees | 8,722 | 8,722 | 8,722 | 8,722 |

e) | Administrative Fees (Registration, University Exam Fees/Migration/Prov. Degree/Alumni and Uniform and other charges) | 16,894 | 16,894 | 16,894 | 16,894 |

f) | University Development Fees | 1,000 | 0 | 0 | 0 |
g) | Student Enrollment Fees (Max.) | 700 | 0 | 0 | 0 |
Total | 1,07,560 | 1,05,860 | 1,05,860 | 1,05,860 |

- Interim fee for the session 2024-25. This fee is subject to change as per the guidelines of State Level Fee Determination Committee, Government of Rajasthan and other regulatory bodies.

Scholarship (Session 2024-25)

S.No. | Class XII | Scholarship |

---|---|---

5. | Percentage greater than or equal to 60 | 25,000 in Tuition Fee |

6. | Percentage less than 60 | 15,000 in Tuition Fee |

Note: - 1. This Scholarship is valid only for first year.

BCA (Bachelor of Computer Applications) Fees Structure (Batch 2024-28)

S.No. | Particulars | 1st year | 2nd year | 3rd year | 4th year |

---|---|---|---|---

- | Tuition Fees | 54,118 | 54,118 | 54,118 | 54,118 |

- | Development Fees | 5,882 | 5,882 | 5,882 | 5,882 |

- | Administrative Fees(Registration, University Exam Fees/Migration/Prov. Degree/Alumni and Uniform and other charges) | 10,000 | 10,000 | 10,000 | 10,000 |

- | University Development Fees | 2,500 | 0 | 0 | 0 |

- | Student Enrollment Fees (Max.) | 700 | 0 | 0 | 0 |

Total | 73,200 | 70,000 | 70,000 | 70,000 |

c) As per NEP, an exit option is available after completion of the third year.

d) Interim fee for the session 2024-25. This fee is subject to change as per the guidelines of State Level Fee Determination Committee, Government of Rajasthan and other regulatory bodies.

Scholarship (Session 2024-25)

S.No. | Class XII | Scholarship |

---|---|---

- | Percentage greater than or equal to 60 | 25,000 in Tuition Fee |

- | Percentage less than 60 | 15,000 in Tuition Fee |

Note: - 1. This Scholarship is valid for all four years.

MCA Fees Structure (Batch 2024-26)

S. No. | Particulars | 1st year | 2nd year |

---|---|---

c) | Tuition Fees | 80,244 | 80,244 |

d) | Development Fees | 8,722 | 8,722 |

e) | Administrative Fees (Registration, University Exam Fees/Migration/Prov. Degree/Alumni and Uniform and other charges) | 16,894 | 16,894 |

f) | University Development Fees | 1,000 | 0 |

g) | Student Enrollment Fees (Max.) | 700 | 0 |

Total | 1,07,560 | 1,05,860 |

- Interim fee for the session 2024-25. This fee is subject to change as per the guidelines of State Level Fee Determination Committee, Government of Rajasthan and other regulatory bodies.

Scholarship (Session 2024-25)

15,000 Scholarship on Tuition fees, for percentage greater than or equal to 80 in graduation program

Note: - 1. This Scholarship is valid only for first year.

M.Tech. Fees Structure (Batch 2024-26)

S. No. | Particulars | 1st year | 2nd year |

---|---|---

1. | Tuition Fees | 1,02,017 | 1,02,017 |

2. | Development Fees | 11,089 | 11,089 |

3. | Administrative Fees (Registration, University Exam Fees/Migration/ Prov. Degree/Alumni and Uniform and other charges) | 16,894 | 16,894 |

4. | University Development Fees | 1,000 | 0 |

5. | Student Enrollment Fees (Max.) | 700 | 0 |

Total | 1,31,700 | 1,30,000 |

* Interim fee for the session 2024-25. This fee is subject to change as per the guidelines of State Level Fee Determination Committee, Government of Rajasthan and other regulatory bodies.

Scholarship (Session 2024-25)

25,000 Scholarship on Tuition Fees only.

Note: - This scholarship is valid for all two years.

B.Design Fees Structure (Batch 2024-28)

S. No. | Particulars | 1st year | 2nd year | 3rd year | 4th year |

---|---|---|---|---|

1. | Tuition Fees | 1,02,017 | 1,02,017 | 1,02,017 | 1,02,017 |

In the event of a student withdrawing before the start of the Course, the entire Fee collected from the student, after a deduction of the processing fee of not more than 1000/- (Rupees One Thousand only) shall be refunded by the Institution. It would not be permissible for Institutions to retain the School/ Institution Leaving Certificates in the original.

In case, if a student leaves after joining the Course and if the vacated seat is consequently filled by another student by the last date of admission, the Institution must refund the Fee collected after a deduction of the processing fee of not more than 1000/- (Rupees One Thousand only) and proportionate deductions of monthly Fee and hostel rent, where applicable.

In case the vacated seat is not filled, the Institution should refund the Security Deposit and return the original documents.

The Institution should not demand a fee for the subsequent years from the students canceling their admission at any point in time. A fee refund along with the return of Certificates should be completed within 7 days.

Institutions, not following guidelines issued by the Council regarding the refund of fees for cancellation of admission or delaying refunds shall be liable to any one or more of the following punitive actions by the Council.

- Fine for Non-Compliance of refund rules of the Fee levied against each case shall be five times the total fee collected per student.
- Suspension of approval for NRI and supernumerary seats, if any, for one Academic Year.
- Reduction in "Approved Intake".
- No admission in one/ more Course(s) for one Academic Year.
- Withdrawal of approval for Programme(s)/ Course(s).

NOTE: Any changes in the Schedule for any of the academic-related activities as notified by the Council from time to time are binding on all the AICTE Approved Universities/Institutions.

Testimonials

-

JIET, has made me a better person. It has helped me develop a positive attitude toward my studies and discover more about myself.

AMITESH VYAS

(Computer Science & Engineering)

NCR Corporation (IT Analyst)

-

It was great times spend in JIET. JIET has a wonderful faculty. They are very cooperative, and the campus environment is very positive.

AMIT JANGID

(Electronics & Communication Engg.)

HM Health Solutions (Senior Consultant - Client Delivery Management)

-

My 4 years at JIET have been a wonderful experience of learning with prolific exposure to the outside. Huge respect for entire faculty members and department.

AKSHIT SINGH

(CIVIL ENGINEERING)

iCubesWire (Executive- CPS Delivery)

-

The thing I admire the most about JIET is the support rendered by the teaching and non-teaching faculty of the Mechanical Engineering Department.

MRITYUNJAY SANWALOT

(Mechanical Engineering)

PolicyBazaar.com (Assistant Manager - Product)

-

The mentors at JIET helped me enhance my academic and interpersonal skills. I am thankful to Training & Placement cell for providing a platform to improve my skills.

PAWAN KUMAR JANGID

(Electrical Engineering)

Panchmukhi Vishwakarma Marbles (Manager)

JU Scholarship for B.Tech. Program (2024-25)

Recognizing Academic Excellence

With the objective of encouraging meritorious students and academic excellence, scholarships are offered to deserving candidates.

S.No. | Type of Scholarship/ Freeship | Scholarship Criteria | Eligible Degree Programmes | Amount as

Percentage of Tuition Fee |

12. | Merit Scholarship | 75% to 84.99% Marks in 10+2 Exam | All UG Programmes | 15% |

13. | Merit Scholarship | 85.00% and Above in 10+2 Exam | All UG Programmes | 20% |

14. | Merit Scholarship | JEE (Main) 2024 Percentile Score 85 to 90 (General Category) | All B.Tech. Programmes | 15% |

15. | Merit Scholarship | JEE (Main) 2024 Percentile Score more than 90 (General Category) | All B.Tech. Programmes | 20% |

16. | Additional Scholarship on the basis of NCC 'A' Certificate/ Alumni/ Sibling/ JU Employee/ Single Mother/ War Widow/ Father from Services/ Para-Military Forces Killed in Action/ Sports Medalist at minimum State level Tournament conducted by Federation Recognised by IOA (Indian Olympic Association) (Any one for 1st year only) | All UG Programmes | 5% | |

Note 1 | Only one Scholarship shall be given from S.No. 1 to 4 above whichever is higher. | |||

Note 2 | To Continue Scholarship, it will be mandatory to Score Minimum 8.0 CGPA and 75% Attendance in all courses (Theory/ Lab/ Project/ Seminar etc in the previous Academic Year in both the Semesters), No Compartment in any semester. |

- Candidates shall be required to pay other fees as applicable to the programme concerned. Such students shall be required to maintain a minimum CGPA (SGPA in 1st semester) of 8.0 in the subsequent semesters without having any compartment in any subject and minimum 75% attendance in each subject, failing which the Scholarships awarded shall be withdrawn. However, the review of the Scholarship shall be conducted at the end of even semester every year.

- If Scholarship of an admitted student has been withdrawn due to non-compliance of the minimum requirement as above, the same may be restored after the review of the same at the end of next even semester provided the student meets the minimum maintenance criteria of CGPA of 8.0 and 75% attendance in each subject during the period.

- It must be noted that no relaxation in terms of minimum Scholarship maintenance criteria shall be granted. For example if a student gets CGPA of 7.99 or lower or attendance in any of the subject equal to or less than 74.99 % shall loose the Scholarship.

Placements

Overview and Placement Statistics

JECRC Foundation has set an exemplary record in placements with its students being chosen in record numbers by industry leaders, year after year. The focused approach of JECRC Campuses towards persistent and multidimensional grooming of student's in-line with the industry expectations has led to a sharp increase in the number of placement offers resulting in its students getting 2000+ offers consistently since last five years with increasing average salary packages.

JECRC Foundation has achieved a new height in its excellent track record of placements by getting 2000+ offers every year. Many reputable publications have rated it among the "Engineering colleges with best Placements in India" due to its students' consistent performance in placement drives/ recruiting drives by prestigious firms. Every Year JECRC Foundation receives top-notch companies exclusively for recruiting its students.

256 Days! 167 Companies! 2008 Selections!

"Persistence Guarantees, The Results are Inevitable"

It is a moment of pride for each member of the JECRC Family that within 256 days, JECRC students have received 2008 On-Campus Offers from 167 leading corporates including Microsoft

The Highest Package of 52 LPA has been offered on the campus by Microsoft, Along with the Average Package of 6.8 LPA. 289 Students have received an offer above 10 LPA.

It is worth celebrating that the largest School in terms of Placements is the Jaipur School of Business (JSB) as of now, encouraging a new wave of Placements in the Institution.

The Students have performed exceptionally well in the 5th Phase of Placements 2023-24 (As on 15th March 2024) and captivated the companies with their skills and grabbed astounding offers from them. As we come to an end of the 5th Phase of Placements 2023-24, we can say that the formidable placement core team of the Inset, Outset and the Newset worked really hard from the very beginning of the placement drive and it is because of them that we successfully continue to make a difference.

The numbers are proven remarkable because of valuable efforts, the efficient design and delivery of the placement program and the efforts of the TPO team. This collective result in itself sets a great example of teamwork. This is also a testimony of the success of the placement strategies used in providing students with that transformational boost in their career that they chose JECRC for.

Company Name | Package | No of selections |

A.INFINITY TAKEOVERS | 1.4 LPA | 1 |

Campus Recruitment Training (CRT)- Nurturing JECRC Talent

JECRC Foundation believes in nurturing the talent and serving the excellence. Preparing the students for their high ambitions, JECRC provides them a complete Training Session of 200 hours, a month before the placements. Shaping the diamonds of society, training modules comprises of all the crucial horizons such as Aptitude Test, Group Discussion, Personal and Technical interviews, Mock Drills etc. Such guidance helps JECRCians to outshine and grab the opportunities irrespective of any obstacles.

Learning Smart Technologies to become Industry Ready:

Learning Smart Technologies to become Industry Ready: We provide intensive training to our students on emerging technologies like Python with Machine learning, Cyber Security, Digital Marketing, Robotics Process Automation, Machine learning with Data Science, SALESFORCE, AI, IOT, Red Hat Linux

Additionally, more than 500 students are certified in Robotics Process Automation by Automation Anywhere which is the largest number by any academic institution throughout the nation. Most of our Pre-final year students had undergone the training on live projects, online courses which leads to certification in these emerging technologies.

Group Discussions/ Personal Interview/ Personal Development/ Aptitude/ Behavioral Assessment
Why Recruit at JECRC?

JECRC Foundation has set up as one of the best engineering college and nurtured the essence of growth in education. Owing to give excellent and better future to the students , training and placement cell puts their best efforts to bridge the gap between Industry and Academia ensuing getting 2000+ offers in last five consecutive years, and for this current session 2023-24, 2008 students has been placed in different top notch companies till 10th April 2024.

JECRC University offers placements for both Undergraduate and Postgraduate Programs. The curricula of these programs are reviewed continuously and fine-tuned to meet the needs of the versatile industry and the latest research areas.

To Name a Few:-

- Corporate Connections

JECRC University apprehended the changing technology dynamics in the industry, which is influenced by different factors like need of solutions for unsolved technical problems, changing characteristics of the social environment etc. In accordance with this trailing thought and in order to empower the students with the latest & prevailing technological skills, we have collaborated with industry leaders like Google Cloud, Microsoft, Amazon Web Services, Hewlett Packard Enterprise, Adobe, Tech Mahindra, TCS, IBM, Cisco, Salesforce, Automation Anywhere, UiPath, Alibaba, EC Council, DXC Technology, International Skill Development Corporation (ISDC), Xebia, Samatrix, Sunstone Eduversity, ICT Academy, Bajaj Finserv, ASSOCHAM, Manipal Hospital, Narayana Hrudayalaya Hospital, and NASSCOM, upGrad Campus, OPPO, Honeywell, Sherlock Institute of Forensic Science etc. Through these alliances, we could not only get the industry experts on board, which is otherwise difficult to deploy for the education ecosystems, but also attained augmented innovation through knowledge exchange. So far, 150+ faculty members have benefitted through Sessions which have been conducted by personnel of the aforesaid 26 globally leading Corporates in the last 2 years and have attained enhanced knowledge of the contemporary technologies like Cloud, Data Science, Machine Learning, Robotics Process Automation, Cyber Security to name a few. In order to put forward the benefits of these collaborations to the student fraternity, JECRC University has introduced and launched joint degree programs in its academic curriculum, in collaborations with the global industry leaders which led to the enrollment of 1400+ students in the session 2020- 2021 & 2021-2022 in the programs offered in association with Microsoft, AWS, TCS, IBM, EC Council, Xebia, Samatrix, ISDC and Sunstone Eduversity. JECRC University is proud of the fact that with through these distinguished Corporate Connections, we could create a path breaking change in the lives and upcoming career of more than 4000+ students.

- JU Maker Space

MAKERSPACE is a gravitating concept in India which provides students a platform to showcase their innovatory ideas and turn them into reality. Rajasthan's first Makerspace was unfurled in JECRC University and was inaugurated by Mr. Hastikaji, Vice president, TCS on 16th August 2018 JU MAKERSPACE is collaborative work areas packed with equipment and tools where students with a bend for invention and innovation can come together under one roof to build, design, create and engineer new things, products, ideas etc.. JU MAKERSPACE welcomes people, irrespective of their education qualifications, age or gender as there are only a few such facilities open in India. A handful of equipment and tools are present, including the rare digital oscilloscope, common ICs and transistors.

With the completion of almost three and a half years since the establishment of the MAKERSPACE, it has been growing progressively from just one student to seventy students, and all belonging to different streams. In addition to that, it is North India's first Student driven Makerspace community. In JU Makerspace students practise their hands on many different things like 3D modelling, Robotics, electronics, Wood working, art, prop making, etc. It works on only one ideology, limitation to a student is his own imagination.

JECRC University is equipped with latest technology, Big 3D Printer at STI hub JU, it can print objects of size 1 meter X 1 meter X 1 meter (1 meter cube).

- Student Leadership Cell

Leadership cannot be taught within the walls of a class room. It is something that one has to imbibe, inculcate or emulate by watching, listening to and interacting with eminent personalities who have made the difference. At JU, we have undertaken a number of outside the classroom initiatives and most of them have taken wings. The Student Leadership Development Cell has been set up with the aim to foster the spirit of budding leadership amongst the student community. Its charter includes lecture sessions, leadership capsules, career awareness, live interactions and many more. The sessions are conducted by eminent personalities from all walks of life viz. entrepreneurs, sports personalities, defense services personalities and change makers of the society who have excelled in their lives and have made a difference by contributing to the betterment of the nation at large and the society in particular.

- Smart India Hackathon (SIH)

Smart India Hackathon (SIH) 2019 is a continuous 36 hours long digital product development competition where problem statements are posed to technology students for innovative solutions. Minister HRD, Shri Prakash Javadekar invigorated the contenders via video conferencing at the inaugural ceremony from the nodal centre JECRC University, Jaipur. Shri Javadekar, addressed 11,000 innovators at 48 centres in 42 cities across the nation that were to ruminate over 350 problem statements of 18+ ministries and 95 corporates. JECRC, Jaipur hosted the Grand Finale of Smart India Hackathon third time in a row. SIH2019 is a step towards New India as envisaged by Hon'ble Prime Minister of India, Shri Narendra Modi, to Innovate, Patent, Produce & Prosper. This exceptional initiative recognises new and disruptive tech-innovations to solve challenges faced by our nation and those posed by top tier companies. The highlight of the event was the interaction of our Hon'ble Prime Minister, Shri Narendra Modi, with the participants.

New School Placement Cell

An initiative focused to internship cum placements for students of School of Design, Hospitality, Journalism & Mass Communication, Humanities & Social Sciences and Law. The cell helps to create an ecosystem by organizing various workshops, events, floor activities, interaction with experts from industry, visit to various places, portfolio design etc leading to projects and internships cum placement offers.

Internship

In today's society, where practical experience is highly valued, internships play a pivotal role in preparing individuals for their professional careers. Internships are temporary work opportunities provided by companies or organizations to students. They offer a hands-on learning experience in a specific industry or field related to the intern's area of study or career interests. JECRC University has implemented an internship program of full six months, for all of its final year students across all disciplines. JECRC University serving as a bridge between students and real-world experience. They offer a platform for skill development, networking, and career exploration, contributing significantly to an individual's success in the modern workforce.

JECRC University believes in the holistic development of its students, and in order to give them a competitive advantage in a world where talent and innovation are in short supply, we have implemented experimental learning in the form of internships.

JECRC University Ranked 15th among (out of 515 participating colleges Across India) and Zonal Rank 3 (out of 127 participating colleges) for Internships by Internshala.

Why Internship?

Internships serves Practical application of knowledge, Skill Development, Industry Exposure, Networking, Exploration of Career paths, Personal and Professional growth, Mentorship and guidance from expertise. Most employers are reluctant to hire someone who's never worked before and internship provides a solution to it by providing are at work place experience where students get an opportunity to work on live projects.

Internships provide a dynamic learning environment that equips individuals with practical skills, industry insights, and networking opportunities, preparing them for successful careers in their chosen fields.

Internships @ JECRC University

JECRC University facilitate internships by establishing partnerships and collaborations with external companies and organizations as well as planned road map for internship program is curated by the team of faculty experts in the Directorate of Internship. Internship program at JECRC University is aimed to develop intentional learning objectives goals that are structured into experience and supervised by a professional with relevant and related background in the field. One Semester internship has been inculcated in curriculum for final year students to provide students exposure to industrial work

environment and gain real world experiences. Internship practice at JU is unique and one of its kind experiences.

- Mandatory six-month internship across all disciplines as part of the curriculum.
- Faculty internship guides selected by the Directorate of Internship and trained to mentor students throughout their internship period.
- Companies are invited to the campus for intern hiring.
- Emphasis on stipend-based internships, often leading to PPOs (Pre-Placement Offers) by employers.
- Average stipend ranges from 20K to 60K per month.
- Rigorous and robust mechanisms for continuous assessments of interns.
- Regular feedback from employers and ongoing monitoring facilitated by Faculty Internship Guides.
- Mentorship provided, and final evaluation conducted by industry experts in relevant areas of specializations.

Final Evaluation by Panel of Industry Experts 2023-24

Note 2 | To Continue Scholarship, it will be mandatory to Score Minimum 8.0 CGPA and 75% Attendance in all courses (Theory/ Lab/ Project/ Seminar etc in the previous Academic Year in both the Semesters), No Compartment in any semester. |

Only one Scholarship shall be given from S. No. 1 to 4 above whichever is higher. Candidates shall be required to pay other fees as applicable for the program concerned. Such students shall be required to maintain a minimum CGPA (SGPA in 1st semester) of 8.0 in the first and subsequent semesters without having any compartment in any subject and a minimum of 75% attendance in each subject, failing which the Scholarships awarded shall be withdrawn. The review of the Scholarship shall be conducted at the end of every semester every year.

If the Scholarship of an admitted student has been withdrawn due to non-compliance with the minimum requirement as above, the same may be restored after the review at the end of next even semester, provided the student meets the minimum maintenance criteria of 8.0 CGPA and 75% attendance in each course during the review period.

It must be noted that no relaxation in terms of minimum Scholarship maintenance criteria shall be granted. For example, if a student gets a CGPA of 7.99 or lower or attendance in any of the subjects equal to or less than 75% shall lose the Scholarship. Even if a student has been allowed to appear in the end examination by relaxing the attendance of a minimum of 75% in a particular course, she/ he shall not be allowed to get the benefit of continuation of scholarship.

Other Conditions:

Candidates who are availing any kind of financial assistance from the Government or any other private organizations for educational support are not entitled to the JECRC University Scholarship. The University can discontinue the Scholarship scheme at its discretion. The final decision of awarding of Scholarship will be taken by the appropriate bodies of the University.

JECRC UNIVERSITY ALUMNI ASSOCIATION

About Us:

At JECRC University, we believe in fostering lifelong connections between our esteemed institution and its graduates. The JU Alumni Association stands as a testament to our commitment to maintaining a strong, supportive network that transcends graduation day. Our vision is to bridge the communication gap, creating a vibrant community that thrives on shared experiences, achievements, and continued learning.

We recognize that the strength of our community lies not just in the academic achievements of our alumni but also in the powerful connections forged among them. Beyond the walls of our classrooms, our alumni have ventured into diverse fields, achieving tremendous success in their respective careers. To ensure that these exceptional individuals remain connected, we offer a multitude of high-quality networking opportunities.

The core purpose of the JECRC University Alumni Association is to cultivate and sustain the bond between the university and its graduates. Beyond graduation, our commitment to the growth and success continues. Through mentorship programs, networking events, and collaborative initiatives, we aim to create an ecosystem where alumni contribute to each other's personal and professional development. As ambassadors of JECRC, alumni play a pivotal role in shaping the future of the university and inspiring the next generation of leaders.

At present, our esteemed community boasts over 7900+ alumni spread across the globe. To support our graduates in both their professional and personal endeavors, we offer an array of services. Engage in exclusive professional networking events, tap into current services, explore opportunities for continuing education, and enjoy access to our campus facilities.

Our Alumni have consistently been the bedrock of our support system. Their unwavering commitment and selfless efforts have been a source of enduring gratitude and humility. Through tireless mentoring in their respective areas of expertise, active involvement in training and placement initiatives, and a genuine dedication to fostering entrepreneurship, our Alumni community stands as a beacon of inspiration for current students.

The active engagement of our esteemed alumni in an array of events, such as the Alumni Annual Meet, Alumni Talk Series, Alumni Mavericks Club Meet, Alumni Social Initiative Meet, Alumni Meet and Greet, Alumni Founders Talk, Alumni Mentorship Program, and Alumni Chapters Meet, we've witnessed a remarkable surge in alumni participation. These diverse and enriching gatherings serve as a testament to the enduring spirit of our alumni, fostering connections, knowledge-sharing, and a vibrant sense of community that continues to flourish.

Embarking on the entrepreneurial journey, many of our alumni have traversed remarkable distances, becoming the architects of their success stories. They are not just invited but actively encouraged to assess and contribute to our events. Beyond contributing to societal well-being through practical goods and services, these trailblazing individuals have also created numerous job opportunities. The entrepreneurial spirit is alive and thriving within our alumni community, with more than 50 start-ups currently led or founded by our accomplished alumni who have wholeheartedly embraced and succeeded in their ventures.

The Alumni Association has an exclusive portal for alumni registration at www.jualumni.in. By registering, alumni can avail themselves of a wealth of benefits, including access to the latest information, job opportunities, and valuable guidance for their holistic growth.

Vision & Mission:

Vision:

The vision of the association is to engage the JECRC University's global community to support and advance the University's excellence and to foster a sense of community. This association serves as a springboard for further development and is run by JU Alumni Association Committee.

Mission:

- To provide a platform to promote networking among alumni of the university
- To help Alumni in achieving their professional growth.
- To encourage the formation of chapters to increase participation of Alumni.

- To exchange professional knowledge, organise technical conferences, seminar, workshops & training courses.
- To undertake social causes
- To honour JECRC University's former student for their achievements
- To help the alumni to get advice from the University in various technical problems they may come across in their work life.
- To update alumni with Job Opportunity.

Events:

- JU Reminiscence:

"Memories are made when we all get back together"

JU Reminiscence made all the memories of our alumni live when they all came back to their own university back and witnessed the energy of their own campus. The JU Alumni Association made this possible to get all the ex-students under the same roof and celebrate this togetherness. At this happy occasion Shri Arpit Agrawal, Vice Chairperson JECRC UNIVERSITY welcomed the students wholeheartedly and expressed his love for them. Students were more than delighted to relive their college days. A friendly Cricket Match has been played between JU Alumni and JU faculties. Alumni shared their valuable experience with the present students of JECRC University.

- Zarurat Alumni Meet:

Zarurat, a club for social concern, conducted alumni meet where many students joined and shared overwhelming stories as they rewound their college days. They also told that how devoted they have become to the society and especially to the underprivileged children after working in Zarurat. Director Shri Arpit Agrawal and Vice-Chancellor Dr. D. P. Mishra also interacted with all alumni and were delighted to have them back to their alma mater.

The alumni meet provided a chance of refreshing the old relationships and forming the new ones.

JECRC University's Alumni Association is thankful to all the alumni who spared their time to attend this event.

- Alumni Meet & Greet Program:

September 25, 2018

JU Alumni Association conducted its first "Meet & Greet" program in association with JU Maverick Club where two of our Alumni, Mr. Yash Pandiyar Sahu (Professional Wedding Photographer), and Mr. Vivek Surya, Photographer (Wide Angle off Camera Flash Fashion) interacted with the current members of the club and taught basic skills of photography. The audience was delighted to hear it from someone who has been in their shoes before and now made it to a certain level. Ms. Komal Joshi, Coordinator, JU Alumni Association thanked the alumni for sparing time and sharing the knowledge with students.
